

## DX Fanzine nr. 27 – November 2015

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual DXers or ascertained from different sources. We are interested in any change about frequencies, times, language-services, transmitters, programme contents, phone and fax-numbers, electronic and postal address, station personnel. The purpose of DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is to provide timely and topical news and information to shortwave enthusiasts worldwide. It is available on the web at <http://www.dxfanzine.com> and updated as soon as loggings, DX news, frequency updates as well as QSL notes are received from any SWL around the world. Although the primary platform for delivery of DX FANZINE information remains its web site, it is turned into a pdf file, (where you can see the final version of it with loggings and information, just as they appear online), a couple of days after the end of each month and sent out FREE to anyone who has subscribed. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated.

Tips are entered in date order. Reception quality shorties: P = Poor, F = Fair, G = Good, E = Excellent.

Language shorties: AA=Arabic, DD=Dutch, EE=English, FF: French, GG= German, IT=Italian, PP=Portuguese, RR=Russian, SS=Spanish, VV=Vernacular

**Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources.**

Gazidellis, Head of Network Development & Operation ERT S.A. He wrote: "Dear Mr. Napolitano, Thank you for your reception reports. I can confirm your reception as absolutely correct. I am also including the current time schedule, which is as follows: Greek 2200-0900, daily, Eu,Am, 9420avl; 0500-0700, daily, Africa, 11645avl, 2200-0900, daily, Eu,Am, 9935avl. All the above mentioned transmissions are from ERT's SW transmission site in AVLIDA (Athens region). ERT SA is the Hellenic Public Broadcaster". I sent him a second E-mail about QSLs (I suggested to add in his letter basic details about reception reports like date, time and frequency of reception) future of short news bulletins in foreign languages (which are not mentioned in his letter), including Italian, and the reason why they don't use anymore the name "Voice of Greece". Here is his reply which came after 20 minutes and included a F/D

electronic letter: "Dear Mr Napolitano, Thank you for your suggestions, we might try an "electronic" QSL in the future. For the rest of the topics you are referring to, I will forward your mail to the people in charge of such matters. I added the required confirmation to the attached letter". (Antonello Napolitano, Taranto-ITALY).
