

## DX Fanzine nr. 29 – January 2016

**The above original picture by Antonello Napolitano, shows a directional arrow sign of Radio Mocambique, Emissor Provincial de Inhambane. The use of this picture is not allowed without his written permission.**

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual DXers or ascertained from different sources. We are interested in any change about frequencies, times, language-services, transmitters, programme contents, phone and fax-numbers, electronic and postal address, station personnel. The purpose of DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is to provide timely and topical news and information to shortwave enthusiasts worldwide. It is available on the web at [www.dxfanzine.com](http://www.dxfanzine.com) and updated as soon as loggings, DX news, frequency updates as well as QSL notes are received from any SWL around the world. Although the primary platform for delivery of DX FANZINE information remains its web site, it is turned into a pdf file, (where you can see the final version of it with loggings and information, just as they appear online), a couple of days after the end of each month and sent out FREE to anyone who has subscribed. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

**NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.**

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources.

Please send your contributions to: [tarantodx@hotmail.com](mailto:tarantodx@hotmail.com) **EDITOR:** Antonello Napolitano

**LAST UPDATED:** 1st February, 2016 at 16.15 – Online version: [www.dxfanzine.com](http://www.dxfanzine.com)

## DX NEWS

## TUNISIA

According to an announcement over the air the Italian programme of Radio Tunis International as from 4th January 2016 will be broadcast on 963 kHz one hour later from 1500 to 1600 instead of 1400-1500. (Antonello Napolitano, Taranto-ITALY)

## QSL REVIEW

### CHINA

**CRI**, 5985 kHz, verified an electronic report in 23 days with a F/D printed QSL card. The report was sent to: [kiswahili@cri.com.cn](mailto:kiswahili@cri.com.cn) and [crieng@cri.com.cn](mailto:crieng@cri.com.cn). Four days after having sent my electronic report I received an E-mail message from Xie of CRI's Swahili section. (Antonello Napolitano, Taranto-ITALY). **ERRATUM** Dear colleagues, please take note that in our DX Fanzine nr. 29 of December 2015 I included an item about Radio Congo on 5985 kHz, but I made a significant mistake unintentionally. In fact, instead of Radio Congo I heard China Radio International's Swahili service as they have confirmed (and QSLed) after they listened to my recording of what I heard on 5985 kHz, which includes an African music show presented by a male DJ. The programme, was probably focused on the Zimbabwean musician Oliver Mtukudzi as five of his songs were played during monitored time: Ndakuvara, Wasakara, Shanda, Hear Me Lord, Todii. I thought it was unlikely that CRI could air a show featuring a single artist from Zimbabwe, as that is a country in which Swahili is not spoken. But I was wrong. It was just CRI! It should be also mentioned that at 1744 I reported that CRI appeared on 5985 kHz, preventing the clear reception of Radio Congo. Probably I was a little bit tired as it was simply a CRI programme that follows another. Thanks to Glen Hauser for his feedback who stimulated me to further investigate about reception of that station on 5985 kHz. I hope those of you that have subscribed to DX Fanzine will consider the total body of my work and passion for short wave listening and see my last log about Radio Congo for what it was – a clumsy as well as bona-fide mistake. Again my apologies for any inconvenient. Antonello Napolitano.

### GERMANY

**Superclan Radio**, 6070 kHz via Rohrbach relay, verified an E-mail report in 5 days with a F/D eQSL. The report was sent to: [superclanradio@yahoo.com](mailto:superclanradio@yahoo.com). (Roberto Pavanello, Vercelli-ITALY).

**Deutschlandfunk**, 1422 and 1269 kHz, verified two separate e-mail reports on last day of transmission (31.12.2015) in 14 days with two separate F/D QSL cards. E-mail: [dlf@dlf.de](mailto:dlf@dlf.de) and [hoererservice@deutschlandradio.de](mailto:hoererservice@deutschlandradio.de) (Antonello Napolitano, Taranto-ITALY)

### HUNGARY

**MTVA**, 873 kHz, verified an electronic report in 14 days with a F/D QSL verification sent by snail-mail. V/S: Kornel Suveg, Technical department MTVA. The report was sent to: [corporate@mtva.hu](mailto:corporate@mtva.hu); [kozonsegszolgalat@mtva.hu](mailto:kozonsegszolgalat@mtva.hu); [info@dunamsz.hu](mailto:info@dunamsz.hu); [mediaklikk@mtva.hu](mailto:mediaklikk@mtva.hu). (Antonello Napolitano, Taranto-ITALY).

### ITALY

**Radio Margherita**, 88.7 MHz, verified an electronic report 15 minutes from the time I sent e-mail with a short E-mail message. V/S: Giuseppe Orobello. E-mail: [info@radiomargherita.com](mailto:info@radiomargherita.com). Postal address: Via Marchese di Villabianca 82, 90143 Palermo. (Roberto Pavanello, Vercelli-ITALY).

**Radio Music Time**, 1377 kHz, verified an E-mail report in 1 day with a F/D eQSL. The report was sent to: radiomusictime@mail.com. (Roberto Pavanello, Vercelli-ITALY).

**Radio Z-100 Milano**, 828 kHz, verified an electronic report in 1 day with a N/D e-mail message. The report was sent to: z100milano@ondemedie.am. V/S: Alessandra. (Roberto Pavanello, Vercelli-ITALY).

**RAI SICILIA**, 1062 kHz, verified an electronic report about a regional programme in 4 days with a N/D e-mail message which only mentions Catania Coda Volpe transmitter site. V/S Luigi Di Chiara, Rai Way S.p.A., Gestione Territoriale, responsabile Zona Sicilia, who promised to send a QSL, too. 14 days after his E-mail verification (18 days after the electronic report was sent to: luigi.dichiara@rai.it) a F/D QSL card was delivered to me by registered mail!! (Antonello Napolitano, Taranto-ITALY).

**IBC**, 6970 kHz, verified an electronic report in 18 days with a F/D printed QSL card. E-mail: ibc@europe.com.(Antonello Napolitano, Taranto-ITALY).

#### **MALI**

**CRI**, 17630 kHz, verified an electronic report in 23 days with a F/D E-mail message but transmitter site was missing. E-mail: crieng@cri.com.cn. This can be seen as breaking news! Please read the contents of their E-mail (They say they are in financial troubles!): "Dear Mr. Napolitano, We are thankful for your reception report and audio file. We can't send you a QSL card by air mail due to our financial difficulty, anyway, we send you a verification of your report as follows. We are glad to verify your reception report on our program transmitted on 17630 kHz at 15:23 hours- 15:50 hours UTC dated January 12th, 2016. Your further reception reports on our broadcasts are welcome. Yours sincerely, Ying Lian, English Service China Radio International. (Antonello Napolitano, Taranto-ITALY)

#### **PIRATE**

**Radio Marabu**, 6305 kHz, verified an E-mail report in 41 days with a F/D QSL card and promo material via snail-mail. The report was sent to: info@radiomarabu.de marabu@radiomarabu.de. (Antonello Napolitano, Taranto-ITALY).

**QBC Radio International**, 6985 kHz, verified an E-mail report in 41 days with a F/D eQSL and friendly message with lot of info. They operates from Hungary V/S: Peter. E-mail: qbcradio@europe.com. (Antonello Napolitano).

**Radio Alice**, 3905 kHz, verified an E-mail report 25 minutes from the time I sent F/Up with a nice F/D eQSL (82 days after original report). V/S: Herman. E-mail: radioalice@hotmail.com (Antonello Napolitano, Taranto-ITALY).

**Radio Orion 2000**, 6910 KHz, verified an E-mail report 4 hours after the time the report was sent with a F/D eQSL. E-mail: radioorion2000@googlemail.com. The reply came from: radioorion2000@gmail.com v/s Commander Cliff Allister Mx Lane. (Roberto Pavanello, Vercelli-ITALY)

#### **SAO TOME' E PRINCIPE**

**VOA** 1530 kHz via Pinheira relay station, received a F/D, including transmitter site, E-mail message from Helena de Menezes, Manager's secretary IBB Sao Tome Transmitting station, 9 days after second F/Up. The report was sent to: HMENEZES@bbg.gov. The same report was already sent to VOA and was verified in 48 days with a P/D card with transmitter site field left blank (!) including the whole A-15 period (03/29/15 and 10/25/15) instead of date of reception. See DX Fanzine nr. 26 October 2015 for more details. (Antonello Napolitano, Taranto-ITALY)

#### UNITED KINGDOM

**BBC Radio Wales**, 882 kHz, verified a report by snailmail with a F/D E-mail message from David Mackie, Head of Operations, Pennaeth Gweithrediadau 11 days after F/UP. 13 days after my report by snailmail I received a first E-mail message from David with thanks and promising a letter of verification. Also in his second E-mail, which included a doc file with some additional information about the programme I monitored and a map locating the transmitter at Washford, Mr. Mackie says: "You'll receive a copy of the enclosed information by post within the next few days". The letter arrived 4 days after his second E-mail and 87 days after the report was sent by snail mail. E-mail: David.mackie@bbc.co.uk (Antonello Napolitano, Taranto-ITALY).

#### USA

**Radio Free Asia (RFA)** announces the release of our Year of the Monkey QSL. The Year of the Monkey begins February 8, 2016 and ends January 27, 2017. The design is used with permission from the United Nations Postal Administration (UNPA). The sheet is made of ten \$ 1.20 USD stamps with the UN emblem as a standard international first class postage stamp. Those born in a monkey year are said to be optimistic, adventurous, humorous, forthright and to-the-point, and intelligent. Monkeys have strong personalities and are witty, but also mischievous, clever and curious about the world around them. The Chinese New Year is celebrated in many countries around the world. This is RFA's 60th QSL and is used to confirm all valid RFA reception reports from January-April 2016. Created by Congress in 1994 and incorporated in 1996, RFA broadcasts in Burmese, Cantonese, Khmer, Korean to North Korea, Lao, Mandarin (including the Wu dialect), Vietnamese, Tibetan (Uke, Amdo, and Kham), and Uyghur. RFA strives for accuracy, balance, and fairness in its editorial content. As a 'surrogate' broadcaster, RFA provides news and commentary specific to each of its target countries, acting as the free press these countries lack. RFA broadcasts only in local languages and dialects, and most of its broadcasts comprise news of specific local interest. More information about Radio Free Asia, including our current broadcast frequency schedule, is available at [www.rfa.org](http://www.rfa.org). RFA encourages listeners to submit reception reports. Reception reports are valuable to RFA as they help us evaluate the signal strength and quality of our transmissions. RFA confirms all accurate reception reports by mailing a QSL card to the listener. RFA welcomes all reception report submissions at <http://techweb.rfa.org> (follow the QSL REPORTS link) not only from DX'ers, but also from its general listening audience. Reception reports are also accepted by email at [qsl@rfa.org](mailto:qsl@rfa.org) and by mail to: Reception Reports, Radio Free Asia, 2025 M. Street NW, Suite 300, Washington DC 20036, United States of America. (Andrew "A.J." Janitschek Radio Free Asia via Anatoly Klepov, Moscow, Russia)

#### ZIMBABWE

**Zimbabwe Broadcasting Corporation**, 4828 kHz, verified a report dated 1999!, 6 days after my latest F/UP sent by E-mail along with mp3 recording to: [moses.charedzera@zbc.co.zw](mailto:moses.charedzera@zbc.co.zw). V/S Moses, who wrote: "Dear Mr Napolitano, Thank you so much for the work you do monitoring short wave radio transmission. The broadcast you monitored was indeed that of ZBC. I however regret to

inform you that the station has since stopped short wave broadcasts due to aging equipment. We are currently at an advanced stage of the digitalisation process and it is expected by June this year we will launch live streaming of our four radio stations. Thank you for your interest in ZBC. Kind regards Moses". (Antonello Napolitano, Taranto-ITALY)

----- END OF DX FANZINE nr. 29 -----

## **E'NATO [WWW.CORADX.IT](http://WWW.CORADX.IT)**

Co.Ra.Dx , nasce con l'obiettivo di riprendere l'opera di promozione del radioascolto svolta dal Co.Rad. fino all'anno 2003. Diversamente da quest'ultimo, constatata la scomparsa della maggior parte di gruppi, d'ascolto, club e bollettini DX, non è più da intendersi come una "Umbrella Organization" di diverse realtà associative italiane. Non più dunque Coordinamento del Radioascolto, ma dei Radioascoltatori e DXer. L'aggiunta della "X" al vecchio acronimo sta a significare che vogliamo essere il punto di incontro tra coloro che si sono avvicinati da poco al nostro hobby e coloro che lo praticano con continuità da più anni. Co.Ra.Dx non è tuttavia da intendersi come un'associazione di persone che condividono il medesimo hobby (Non esistono tessere, quote, presidenti e consigli direttivi!) ma come uno sportello telematico al quale rivolgersi per ottenere, ovviamente in forma del tutto gratuita, informazioni e consigli che aiutino i neofiti a trasformarsi gradualmente in hobbysti esperti. La strada che si intende seguire per raggiungere lo scopo che ci siamo prefissi è la stessa intrapresa dal Co.Rad.: pubblicare sul sito, suddiviso in sezioni specifiche, in modo che chiunque possa accedere con immediatezza alle informazioni che sono maggiormente di suo interesse, articoli e monografie su tutti gli aspetti del radioascolto. Ma non solo: daremo spazio anche all'attualità, pubblicando la lista delle emittenti che si ascoltano sulle onde medie e corte (Logs), dei riscontri che le stesse hanno inviato ai rapporti di ricezione (QSL), ed i prospetti con gli orari e le frequenze delle varie emittenti (Schedule). Un'attenzione particolare la rivolgeremo allo scenario, in rapida e continua evoluzione, delle stazioni che trasmettono in onde medie o corte dall'Italia con l'obiettivo, sicuramente ambizioso, di divenirne una fonte autorevole, dentro e fuori dal Paese, di notizie aggiornate e precise. Un altro punto fermo del nostro "sportello" sarà quello dell'esclusiva. Gli autori degli articoli si impegnano infatti a non pubblicarli su nessun altro sito web o giornale telematico o cartaceo. Tra le poche eccezioni figureranno i Logs e le Notizie sulle QSL, nonché alcuni articoli, ritenuti particolarmente interessanti ed utili, la cui stesura originale sia stata redatta in una lingua diversa dall'italiano. I contenuti di Co.Ra.Dx, inoltre, non saranno mai trascritti sui social network come Facebook che verrà utilizzato unicamente come strumento di pubblicità che rimanda al sito web. Il nostro progetto, in sintesi, altro non è che quello di riproporre il "vecchio" modo di promuovere l'hobby del radioascolto adattandolo al tempo che viviamo e nasce dopo aver constatato che molti appassionati navigano a vista in un mondo di notizie confuse e che si clonano a dismisura. Sono sempre di meno coloro che hanno consapevolezza delle diverse ed interessanti possibilità di ascolto che tuttora esistono e che si perdono, dietro la sintonia di stazioni "inutili", i cui contenuti risultano incomprensibili e con le quali sarà impossibile interagire, come, ad esempio, quelle che trasmettono in continuazione codici alfa-numeriche segreti. Per non parlare dell'autoreferenzialità di taluni appassionati la cui concezione del principio della condivisione della notizie, da sempre alla base della crescita della comunità del radioascolto, è univoca. Sempre più spesso si assiste, ad esempio, alla pubblicazione sui social network e sovente inutili blog personali, della scansione della QSL appena ricevuta, senza accennare minimamente all'indirizzo e-mail utilizzato, alla frequenza ascoltata e ad altri dettagli che sono risultati fondamentali per l'ottenimento della stessa. Cattive abitudini che sono senz'altro la conseguenza del venir meno dei gruppi d'ascolto e bollettini DX che, in passato si erano fatti carico di guidare i neofiti. Co.Ra.Dx nasce dal basso, dall'incontro di alcuni vecchi appassionati di radioascolto, e si basa sui principi del volontariato e dell'autorganizzazione e dell'assenza di qualsiasi fine di lucro. Allo stesso tempo – lo ribadiamo – non trattandosi di un'associazione, non intende rappresentare in nessuna sede e luogo, la comunità degli appassionati italiani di radioascolto. Non si entra a far parte di Co.Ra.Dx ma si condividono, in modo onesto e disinteressato le proprie conoscenze. **[INDIRIZZO WEB: WWW.CORADX.IT](http://WWW.CORADX.IT)**
