DX Fanzine nr. 38 – October 2016

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual DXers or ascertained from different sources. We are interested in any change about frequencies, times, language-services, transmitters, programme contents, phone and fax-numbers, electronic and postal address, station personnel. The purpose of DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is to provide timely and topical news and information to shortwave enthusiasts worldwide. It is available on the web at www.dxfanzine.com and updated as soon as loggings, DX news, frequency updates as well as QSL notes are received from any SWL around the world. Although the primary platform for delivery of DX FANZINE information remains its web site, it is turned into a pdf file, (where you can see the final version of it with loggings and information, just as they appear online), a couple of days after the end of each month and sent out FREE to anyone who has subscribed. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. **Reception quality abbreviations:** **P** = Poor, **F** = Fair, **G** = Good, **E** = Excellent. **Language abbreviations:** **AA**=Arabic, **CC**=Chinese, **CT**=Catalan, **DD**=Dutch, **EE**=English, **FF**=French, **GG**=German, **HA**=Hausa, **IT**=Italian, **JJ**=Japanese, **PP**=Portuguese, **RM**=Romanian, **RR**=Russian, **SS**=Spanish, **VV**=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources.

QSL REVIEW

NB: Radio stations are listed under the country in which the transmitter (not studios!) is (or presumed to be) located. Unless otherwise stated, reception reports should be considered as sent by electronic mail.

ARMENIA

Radio Praha (Special 80th Anniversary Broadcast), 9885 kHz, via Gavar: F/D (w/site) 80th anniversary special QSL card, with a Radio Prague 80th anniversary Button Pin for a postal report to Prague in 21 days. V/S: illegible. (Edward Kusalik Daysland, Alberta-CANADA).

Radio Mi Amigo, Ed: frequency?, via Gavar: Received a reply within an Hour, saying they sent out all QSL's. The verification was just a photo of the staff during the broadcast and the details but not other verification data. It took 27 days to get a reply. V/s Captain Kord. (Edward Kusalik Daysland, Alberta-CANADA).

SM Radio International, 11845 kHz, via Gavar: F/D eQSL 2 days after F/UP. V/S: Sascha Mantz. I sent F/UP only 18 days after original report as - in the meantime - I received an E-

mail from Ron O'Quinn who is a DJ living in Ecuador and who hosts a show on SM R.Int without any verification of my report. E-mail: info@shortwavecommunity.com (Antonello Napolitano, Taranto-ITALY).

Radio Waves International (France) is back on 11401 kHz (power about 35w). The antenna is a dipole that they hope to put higher in a few weeks. RWI will celebrate in November its 33th anniversary on the airwaves. The story started on November 13, 1983 at 9.00 UTC on 6250 kHz (The only xtal in their hands at that time).

Tx was using one 807 power by battery and converter power was about 25w feeding a half wave dipole. They hope to operate in November on 48, 41 or 26 metre band with their own transmitters. They also plan a relay via Radio Channel 292, on 6070 kHz. Some special QSL cards will be provided to celebrate this new anniversary. Their web site is: <http://www.wrwi.fr> - Address: B.P.130, 92504 Rueil Cedex, France. (Peter Hills & Philippe of Radio Waves International since 1983 on shortwaves, 32 years on the airwaves, with 24 years of country music)
