

## DX Fanzine No. 44 – April 2017

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual DXers or ascertained from different sources. We are interested in any change about frequencies, times, language-services, transmitters, programme contents, phone and fax-numbers, electronic and postal address, station personnel. The purpose of DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is to provide timely and topical news and information to shortwave enthusiasts worldwide. It is available on the web at [www.dxfanzine.com](http://www.dxfanzine.com) and updated as soon as loggings, DX news, frequency updates as well as QSL notes are received from any SWL around the world. Although the primary platform for delivery of DX FANZINE information remains its web site, it is turned into a pdf file, (where you can see the final version of it with loggings and information, just as they appear online), a couple of days after the end of each month and sent out FREE to anyone who has subscribed. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

**NB:** All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. **Reception quality abbreviations:** **P** = Poor, **F** = Fair, **G** = Good, **E** = Excellent. **Language abbreviations:** **AA**=Arabic, **CC**=Chinese, **CT**=Catalan, **DD**=Dutch, **EE**=English, **FF**=French, **GG**=German, **HA**=Hausa, **IT**=Italian, **JJ**=Japanese, **KK**=Korean, **PP**=Portuguese, **RM**=Romanian, **RR**=Russian, **SS**=Spanish, **VV**=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources.

Please send your contributions to: [tarantodx@hotmail.com](mailto:tarantodx@hotmail.com) **EDITOR:** Antonello Napolitano

### **SRI LANKA**

**AWR**, via Trincomalee, 15430 kHz: F/D, including transmitter site, QSL card 49 days after F/UP. A few hours after my F/UP I received an E-mail from V/S, Adrian M. Peterson, DX Editor. saying: "At the present time, we are still processing a pile up of pending reception reports, numbering several hundred, so we will add your July report to that list. Email reception reports now need to be addressed to QSL@AWR.org". But that is not all: 17 days after F/UP I received a F/D eQSL, including transmitter site, from Roberto Valencia (ValenciaR@gc.adventist.org). Probably this double verification was due to the fact that I sent my F/UP to more than one E-mail address: web@awr.org, wavescan@awr.org, qsl@awr.org. Total of 9 months (My report was on 17 June 2016) waiting for a reply. (Antonello Napolitano, Taranto-ITALY).

But that is not all: Thanks to Christian Milling of [shortwaveservice.com](http://shortwaveservice.com) and Jeff White of WRMI, some transmissions of Radio Tirana are also relayed on shortwaves via Kall Krekel in Germany and Okeechobee in the USA. Here is the schedule (Times in UTC). Monday to Saturday to Europe, on 6005 kHz via Kall Krekel: 1800-1830 in **Italian**, 1830-1900 in **French**, 1900-1930 in **English**, 1930-2000 in **German** (This also on 3985 kHz). Monday to Friday to North America, on 5950 kHz, via WRMI in Okeechobee: 2300-2330 in **English**. (Antonello Napolitano, Taranto-ITALY).

**CONGO:** Radio Congo Chaine Nationale was observed on the Eutelsat/Hot Bird 13E satellite on 29 April 2017 signing off at 0000 (0100 in Congo) with the National Anthem. The speaker mentioned that programmes restart at 0500 hours (0400 UTC). This schedule is a little bit different from what you can see on WRTH 2017 (0420-2300). Programmes were in both, French and Vernacular. There was also an occasional station identification announcement in Spanish a couple of minutes before the start of a Salsa music show. It should also be added that only the FM frequency is mentioned on the air! Radio Congo can be heard in Europe (See Log section) on 6115 kHz with a poor signal, usually around 1800. (Antonello Napolitano, Taranto-ITALY).

**ITALY:** Here is the current schedule of Marconi Radio International (A-17 period), until 29 October 2017: On Tuesdays, from 17.00 to 20.00 UTC on 7700 kHz (Alternative 7690) USB Mode, with a power of 100 watts. Their schedule is liable to change and additional broadcasts can be aired occasionally. As usual, when this occurs, a circular message is being sent to all listeners in their mailing list as well as shortwave community. Their broadcasts include some kind of programmes now sadly missing from most shortwave radio stations: a weekly old style DX show in English "Italian Short Wave Panorama" (there is also the Italian version called "Panorama Onde Corte") with lot of recent logs as well as a Mailbag show in Italian ("Casella Postale Elettronica") on air on the first Tuesday of each month, with repeats during the following transmissions in the same month. Station

identification announcements are not only in English and Italian but also in French, German, Japanese, Romanian, Spanish and Catalan. DX shows "Italian Short Wave Panorma" and "Panorama Onde Corte" can also be heard throughout IBC, Italian Broadcasting Corporation, using transmitter facilities of WRMI, in Okeechobee (Florida) in the USA, Radio Channel 292, in Rohrbach Waal (6070 kHz) in Germany, and Radio Studio X (1584 kHz), in Pistoia, Italy. For more details, including times and frequencies, please visit the website of IBC, Italian Broadcasting Corporation, at: <http://ibcradio.webs.com> (MRI Facebook page).

**KUWAIT:** Radio Kuwait after two years of absence is back to shortwaves with its English programme, heard with a quite good signal in both Europe and North America, from 1800 to 2100 on 15540 kHz. On 28th April the station announced on the air they wish to receive reception reports to this (unknown to me!) E-mail address: [kwtfreq@hotmail.com](mailto:kwtfreq@hotmail.com) Surprisingly, I found that delivery of my report to this e-mail address failed permanently! The same occurred with the well known official E-mail address: [Kwtfreq@media.gov.kw](mailto:Kwtfreq@media.gov.kw)! However Radio Kuwait mentioned also the following postal address and fax number for reception reports: Ministry of Information, Engineering Affairs, Department of Frequencies, P.O. Box 967, Safat, 13010 Kuwait; Fax:+965 22415498 (Antonello Napolitano, Taranto-ITALY).
