

DX Fanzine No. 77 – January 2020

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual DXers or ascertained from different sources. We are interested in any change in frequencies, times, language-services, transmitters, programme contents, phone and fax-numbers, electronic and postal address, station personnel. The purpose of DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is to provide timely and topical news and information to shortwave enthusiasts worldwide. It is available on the web at www.dxfanzine.com and updated as soon as loggings, DX news, frequency updates, as well as, QSL notes are received from any SWL around the world. Although the primary platform for delivery of DX FANZINE information remains its web site, it is turned into a pdf file, (where you can see the final version of it with loggings and information, just as they appear online), a couple of days after the end of each month and sent out FREE to anyone who has subscribed. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. **Reception quality abbreviations:** P = Poor, F = Fair, G = Good, E = Excellent. **Language abbreviations:** AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources.

Please send your contributions to: tarantodx@hotmail.com **EDITOR:** Antonello Napolitano (AN).

PLEASE NOTE THAT DX FANZINE IS NOW BEING SENT FROM A NEW E-MAIL ADDRESS: dxf@dxfanzine.com

You can use this address also for sending your contributions DX logs or QSL notes.

EDITOR'S NOTE: Less logs than usual but a bumper edition of QSL review thanks to Artur Fernández Llorella from Spain who provided DXF with a lot of information about his QSL catches. This, in short, the content of the first issue of our bulletin for the year 2020. However, the biggest news is the return to shortwaves of the hosts of IBC (Italian Broadcasting Corporation) with a new programme in Italian called "Scorribande". The show will be carried over the 1 kW transmitters of Shortwave Radio from Germany on 3975 and 6160 kHz. More details on the next full page advertisement for "Scorribande".

Last but not least thanks for following us and please don't forget to join the recently created Facebook group for DX FANZINE. You can see it at: <https://www.facebook.com/groups/1799444656853633/>

“SCORRIBANDE”

...In Buona Compagnia

Dal 15 febbraio le voci di IBC (Italian Broadcasting Corporation) tornano sulle onde corte di 3975 e 6160 kHz!!!

C'è ancora chi crede nelle onde corte e scommette addirittura su nuove trasmissioni nella lingua di Dante! Tornano con voi le voci di IBC, in un nuovissimo spazio in lingua italiana attraverso i trasmettitori di 1 kilowatt di potenza di Shortwave Radio che trasmette dalla Bassa Sassonia in Germania.
