

DX Fanzine No. 108 – August 2022

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at www.dxfanzine.com and www.dxfanzine.org. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. **Next deadline: 30.09.22**

Please send your contributions to: dxf@dxfanzine.com **EDITOR:** Antonello Napolitano (AN).

THE RETURN OF RADIO CONGO ON SHORTWAVES 6115 kHz

On 28th August Manuel Méndez from Spain and me caught, for the first time after a long time, around 18.00 UTC Radio Congo on 6115 kHz (See our Logging Section). This was really a surprise, as there were reports in the past that Radio Congo ceased shortwave broadcasts.

On 30th August I was able to hear the news from Radio Congo over Hotbird Satellite. Surprisingly, one of the major news item of the day, was the installation of a new shortwave transmitter in Brazzaville. I sent the recording of such news item to our French contributor Christian Ghibaudo for having a full translation of the report. *“The video recording - says Christian - contains a report on the installation of the transmitter, with an interview with Antoine Oviebo (Ministry of Communications) and Martin Tsonga (Télédiffusion du Congo). They then explain that the new transmitter will cover the entire country, much of Africa and probably beyond the continent. Technical details: Djoué station (West of Brazzaville) power 50 kw, frequency 6115 kHz. The installation work took 2 months and was carried out by the company China Radio Television. It is therefore a Sino-Congolese cooperation”.* Manuel Mendèz was able to hear again Radio Congo even in the first two days of September (Antonello Napolitano)

HOST OF AWR's ITALIAN DX SHOW ROBERTO SCAGLIONE DEAD AT 55

Roberto Scaglione, a broadcast technician well known in Sicily and long time shortwave enthusiast of Italy who became nationally known for hosting every Sunday morning the AWR 's Italian DX Show "*Obiettivo DX*" died on 1st August 2002, at his home in Palermo.

The cause was a sudden cardiac arrest, according to his obituary. He was 55.

People who knew Roberto remembered him as a versatile, colourful person who loved the airwaves. For almost all of his life, radio and TV were inseparable spheres to Roberto Scaglione.

Professionally speaking, He was a long time broadcast technician of Tele One, a regional TV station with its headquarter in Palermo, which covers most of Sicily.

A very active shortwave enthusiast, He was the editor of BCL News (originally a printed DX bulletin later changed to "digital-only" version).

In the last years He started a number of blogs devoted to radio and TV in Sicily, AM radio (both SW and MW).

He was also a contributor to World Radio TV Handbook by providing information for the sections of Italy and Malta.

Roberto has often been championing the causes of others. For example, he was one of the pioneers in the liberalization of Medium Wave broadcasting in Italy.

As an electronic media expert He has also hosted a show called "Media and Tech" aired over the frequencies of Radiodiffusione Europea which broadcasts on medium wave from Trieste in the North East of Italy.

The terrible news about the sudden passing of Roberto was a shock to say the least and way too young to leave this earth. My condolences to his family and friends. (Antonello Napolitano)
