

DX Fanzine No. 114 – March 2023

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at www.dxfanzine.com and www.dxfanzine.org. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. **Reception quality abbreviations:** **P** = Poor, **F** = Fair, **G** = Good, **E** = Excellent. **Language abbreviations:** **AA**=Arabic, **CC**=Chinese, **CT**=Catalan, **DD**=Dutch, **EE**=English, **FF**=French, **GG**=German, **HA**=Hausa, **IT**=Italian, **JJ**=Japanese, **KK**=Korean, **PP**=Portuguese, **RM**=Romanian, **RR**=Russian, **SS**=Spanish, **VV**=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. **Next deadline: 31.03.23**

Please send your contributions to: dx@dxfanzine.com **EDITOR:** Antonello Napolitano (AN).

LAST UPDATED: 01 March 2023, at 18.15 UTC. Web: www.dxfanzine.com www.dxfanzine.org

The cover photo shows a pick up car with logo of Radio Vox Dei, which broadcasts from Cucuta in Colombia, (close to the border with Venezuela) on 1120 kHz. The station claims to have received during 2022 a number of reception reports from the Nordic countries of Europe. This issue includes info on a verification the station sent to a South American DXer.

QSL REVIEW

NB: Radio stations are listed under the country in which the transmitter (not studios!) is (or presumed to be) located. Unless otherwise stated, reception reports should be considered as sent by electronic mail.

ARGENTINA

Radio Rafaela LT28, 1470 kHz: N/D E-mail verification in 2 days. V/S Tomàs Bertero. E-mail address: lt28radiorafaela@gmail.com (Guido Schotmans, Merkse, BELGIUM, via Facebook Group QSL Chasers).

AUSTRALIA

Reach Beyond Australia, 15380 kHz: F/D eQSL in 10 hours. E-mail address: radio@reachbeyond.org.au (Carlos Alberto Erdmann, Vera Cruz, Brazil, via Facebook Group QSL recientemente recibidas).

BULGARIA

Radio Taiwan International, via Kostinbrod, 6005 kHz: QSL card received by post in 35 days. Report in French sent to: fren@rti.org.tw (Christian Ghibaudo, Nice, FRANCE).

COLOMBIA

Radio Vox Dei, 1120 kHz: N/D e-mail verification in approximately 40 days. E-mail address: emisoravoxdei@diocesisdecucuta.com (Hector Gregorio Goicoechea, Maldonado, URUGUAY, via Facebook Group QSL recientemente recibidas).

De: Emisora Vox Dei Diócesis de Cúcuta

<emisoravoxdei@diocesisdecucuta.com>

Cordial saludo Hector Gregorio Goicoechea Lavalleja

De antemano, presentamos excusas por la tardanza en la respuesta, pero nuestro personal está en unos días de vacaciones.

Nos alegra mucho saber que la señal de nuestra Emisora llega en esas condiciones hasta su país. Durante el año 2022 recibimos varios informes de Dxing de países del Norte de Europa; sin embargo usted es la primera persona que nos reporta en Suramérica.

Le cuento que esta estación radial transmite en el dial 1.120 AM y pertenece a la Iglesia Católica de Cúcuta - Norte de Santander (Colombia), en la zona de frontera con Venezuela. Transmitimos desde la 4:00 a.m. hasta las 11:00 p.m. todos los días de lunes a domingo. Debido a que es una emisora que pertenece a la Iglesia Católica, la programación es netamente religiosa, dedicada a la evangelización y a anunciar la Palabra de Dios a través de programas, música y producciones radiofónicas destinadas a tal fin.

El nombre Vox Dei, responde a la voz latina: La Voz de Dios. El transmisor que tenemos en este momento es de Nautel (Nx10) de origen canadiense de 10 kilovatios de potencia, y la antena de transmisión está ubicada en el Cerro Tasajero de la ciudad de Cúcuta.

Agradezco su mensaje y le deseo abundantes bendiciones de parte de Dios para usted y su familia.

CUBA

CMKC Radio Revolucion, 840 kHz: E-mail verification and some photos of studios in 2 days. E-mail address: cmkcradiorevolucion90@gmail.com (Jahri Lehtinen, Lahti, FINLAND).

Radio Habana Cuba, 9710 kHz: E-QSL in 148 days. E-mail address: radiohc@enet.cu (Juan Carlos Pérez, Valladolid, Spain, via Facebook Group QSL recientemente recibidas).

CZECH REPUBLIC

Country Radio, 1062 kHz: N/D E-mail message QSL in 1 day. V/S: Miroslav Albrect, Konzultant Programu. E-mail address: miroslav.albrecht@countryradio.cz (Michele Gasparri, Civitanova Marche, Italy, via Facebook Group QSL recientemente recibidas)

ESWATINI

TWR Eswatini, 15105 kHz: E-QSL in 1 day. E-mail address: info@twrafrica.org (Michele Gasparri, Civitanova Marche, Italy, via Facebook Group QSL recientemente recibidas).

GERMANY

Atlantic 2000 International, via Rohrbach Waal, 9670 kHz: E-QSL in 2 days. Report in French sent to: atlantic2000international@gmail.com (Christian Ghibaudo, Nice, FRANCE).

Radio Slovakia International (French Section), via Kall Krekell, 6005 kHz: QSL card received by post in 19 days. Report in French sent to: rsi_french@rtvs.sk (Christian Ghibaudo, Nice, FRANCE).

GUAM

KTWR, 9910 kHz: F/D-QSL card, personal letter and schedule in 61 days. E-mail address: ktwrdrm@twr.org (Atsuhiko Takezawa, Nagoya City, JAPAN, via Facebook Group QSL Address).

twr Trans World Radio
P.O. Box 6095 | Merizo, Guam 96916
twr.asia asiafeedback@twr.org

"...In God's great mercy he has given us new birth into a living hope through the resurrection of Jesus Christ ..."
1 Peter 1:3 NIV

Atsuhiko Takezawa THIS QSL CARD VERIFIES THAT YOU HEARD:

Estimada oyente...efectivamente ha sintonizado nuestra emisora y nuestra programación. Es muy satisfactorio también para nosotros saber que alguien nos escucha en un lugar tan lejano de nosotros como Finlandia. Actualmente tenemos programación local en tres horarios: 7.25 AM, 8.45 AM y 13.55 PM.

Gracias por oírnos y por enviar report.

Departamento de Redacción de Radio Nacional de España en Córdoba.

>972 kHz 12.1.2023.

Saludos Jari.

Efectivamente, confirmamos que ha escuchado RNE en San Sebastian en Diciembre 13, 2022 en 531 OM. Es el informativo local de las 07.25 de la mañana dirigido por la periodista Margarita Bascónes.

Un saludo muy grande desde el País Vasco.

Third largest structure in Iceland is demolished Wednesday (By Daren Daman)

Once ubiquitous, few radios now receive long wave broadcasts. Priority is now given to boosting FM signals. RÚV's long wave transmitter in East Iceland is to be demolished.

Monday (Ed: 27th Jan. 2023) saw RÚV's East Iceland long wave transmitter switched off. The mast at Eiðar, at 218 metres the third tallest structure in the country, transmitted RÚV's radio services across the east of the country and out into the Norwegian Sea. In a statement, RÚV say that the equipment needed to maintain the service is very expensive, and few radios now receive long wave broadcasts.

The change is being made in association with Iceland's Civil Defence and other bodies concerned with emergencies, as long wave signals have traditionally formed part of emergency communication planning. However, an upgraded FM system will take over this function.

The long wave signal from Eiður, on 207kHz, has been replaced by a more powerful FM network in East Iceland. RÚV has increased the number of FM transmitters and renewed existing masts. Long wave transmissions will continue for a time on 189 kHz from Hellissandur at Gufuskálar in West Iceland - Iceland's tallest structure at 412 metres - but it too will ultimately close, and then the FM system will fully take over the role of safety broadcasts.

On Wednesday (Ed: 1st Mar. 2023), the mast at Eiður will be demolished. Bragi Reynisson, director of technical affairs at RÚV, says "The mast will be cut down in such a way that it falls to the ground. Increased requirements for flight safety around Egilsstaðir Airport have called for us to take action and remove the mast. Of course, it is always problematic to demolish such a tall structure. We will be joined by a police team to ensure everything is safe nearby." The construction and upgrades of the FM transmission system in less populated places started in 2017, and is progressing well. Transmitters have been placed in the Highlands, as have powerful sites at key locations for seafarers. Back-up power stations reduce the risk of transmission interruptions due to weather and power outages.

"There are holes in it [FM coverage], as there has been with long wave. But what we have done in recent years is to build a large number of transmitters in order to consolidate the FM system. And we have replaced equipment at older transmission sites, and we have also built backup power or battery backup power for up to 24 hours at all major transmission sites in the East. We strive to cover all year-round residential areas and all major roads and major tourist attractions. But unfortunately there will be places that are outside that are simply very difficult to reach. There we have to refer to other ways to make contact, such as for example through satellite systems such as Starlink or through satellite phones," says Bragi.

Long wave signals travel for very long distances, and so have been useful to offer coverage of large land masses and sea areas. However, services are in decline worldwide, as ever fewer listeners now own radios that can pick up long wave. UK national broadcaster the BBC say that the ancient glass valves which allow their long wave transmitters to function are now so rare that fewer than ten exist in the world, and when one of the last two stop working, so will its service on long wave - although the broadcaster will likely end long wave transmissions before that happens anyway. (Source: <https://www.ruv.is/english/2023-02-28-third-largest-structure-in-iceland-is-demolished-wednesday>)

ITALY ON MEDIUM WAVES

Welcome to this 4.1 edition of "List of private MW stations in Italy". Unlike other lists that you can find over the Internet, this publication only lists stations currently on the air, expected to start operation very soon or temporarily off-air. Also included is information on how to contact the stations (E-mail and Web sites), QSL policies and, when known, transmitter powers and future plans. I have compiled this list by assembling information received directly from the stations and my own research. I have done my best to keep mistakes to a minimum.

Almost all of Italian MW stations are licensed. Despite this, solid data on hours of transmission, programmes, frequencies, and contacts are difficult to obtain because station practices themselves change often. Another point to be mentioned is the fact that frequencies sometimes change, and new ones or old ones appear or reappear. Some stations, especially those unlicensed, are not on the air daily and/or the frequencies rarely tend to be used all the day.

Most stations operate from the North of Italy (especially from the regions of Lombardia, Veneto and Friuli Venezia Giulia), a few from the central part of the country (Toscana, Emilia Romagna, Umbria, Marche, Lazio and Abruzzo) and, after the disappearance a number of years ago of Gold 1593 located in Sicily, virtually none from the South.

The details below have been updated based on my own monitoring reports from my location in Leporano near Taranto (South of Italy) and via a websdr located near Malvaglia in Canton Ticino, Switzerland, as well as on logs from a number of DXers, Fabrizio Magrone, Roberto Pavanello and others, all of them (unlike to me) living in the North of Italy that appeared recently in various Facebook groups and/or online DX publications.

I am also aware about other stations which have planned to start as soon as possible broadcasts on medium wave but - for the time being - they have been omitted. This list will probably be regularly updated and more details will be added in future. If you have any corrections, additions, comments or suggestions please don't hesitate to write to: dx@dxfanzone.com – Last but not least: if you find any error (and you are invited to let me know) be advised that it was absolutely unintentional! Antonello Napolitano.

Licensed and unofficial independent broadcasting stations on mediumwave (*L* means Licensed)

| Freq. | Station | Transmitter Location, | Region of Italy |
