

DX Fanzine No. 116 – May 2023

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at www.dxfanzine.com and www.dxfanzine.org. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. **Next deadline: 27.05.23**

Please send your contributions to: dxf@dxfanzine.com **EDITOR:** Antonello Napolitano (AN).

LAST UPDATED: 01 May 2023, at 00.10 UTC. **Web:** www.dxfanzine.com www.dxfanzine.org

The cover photo shows one of the speakers of Radio Lesotho heard by DX editor on 639 kHz MW!

9310.3	07.04.23	0500-0510	??? So called "Radio Ljube", playing non stop only USSR/Russia NA in disco style. // 7032.3, 6828.3 kHz (All in USB mode!) ED: Ljube is the name of a Russian rock band from Lyubertsy Lyube's MX is a mixture of several genres, with influences from both Russian folk MX, rock, Russian chanson and Soviet military songs. The band, founded in 1989, have released 16 albums. Lyube's producer and main songwriter is Igor Matviyenko. So this version of Russia's NA is not a funny song!	25332	PR

SPAIN: RADIO GIRONA HAS CEASED TO USE 1008 kHz on MW On 31st March 2023 Ràdio Girona SER 1008 kHz has stopped broadcasting on the Medium Wave frequency of 1008 kHz. Despite Its power of 6 Kw, the Nautel XR6 transmitter located in Sarrià de Dalt, was used at low power before being switched off. This transmitter centre has always had poor performance: the tower is only 40 meters high and around has an iron net as fence. Grounding was also not too good. But that was not all: at a distance of only 10 metres there are a church and cemetery. (Source: Jordi Brunet, Catalunya, SPAIN).

Taliban closes Afghan women-run radio station for 'playing music'

Sadai Banowan station head denies any violation, saying there was no need for the closure and calling it a conspiracy.

Published On 3 Apr 2023

A women-run radio station in Afghanistan's northeast has been shut down for playing music during the holy month of Ramadan, a Taliban official said.

Sadai Banowan, which means women's voice in Dari, is Afghanistan's only women-run station and started 10 years ago. It has eight staff, six of them female. Moezuddin Ahmadi, the director for Information and Culture in Badakhshan

province, said the station violated the "laws and regulations of the Islamic Emirate" several times by broadcasting songs and music during Ramadan and was shuttered because of the breach. "If this radio station accepts the policy of the Islamic Emirate of Afghanistan and gives a guarantee that it will not repeat such a thing again, we will allow it to operate again," said Ahmadi.

Station head Najia Sorosh denied there was any violation, saying there was no need for the closure and called it a conspiracy. The Taliban "told us that you have broadcast music. We have not broadcast any kind of music," she said. Sorosh said at 11:40 am on Thursday (7:10 GMT), representatives from the Ministry of Information and Culture and the Vice and Virtue Directorate arrived at the station and shut it down. She said station staff have contacted the Vice and Virtue Directorate, but officials there said they do not have any additional information about the closing.

Many journalists lost their jobs after the Taliban takeover in August 2021. Media outlets closed over lack of funds or because their staff left the country, according to the Afghan Independent Journalists Association. Local Afghan journalists who refuse to comply with the Taliban's policies have been arrested, with some reporting abuse and torture after their release. The Taliban has barred women from most forms of employment and education beyond the sixth grade, including university. There is no official ban on music.

During their previous rule in the late 1990s, the Taliban banned most television, radio and newspapers in the country. (Picture: Najia Sorosh of Sadai Banowan radio station, left, speaks into a microphone in the broadcasting studio in Badakhshan province, Afghanistan [File: Courtesy of Sadai Banowan via AP] (Source: <https://www.aljazeera.com/news/2023/4/3/taliban-closes-afghan-women-run-radio-station-for-playing-music>)

QSL REVIEW

NB: Radio stations are listed under the country in which the transmitter (not studios!) is (or presumed to be) located. Unless otherwise stated, reception reports should be considered as sent by electronic mail.

Radio Free Europe/Radio Liberty, via Santa Maria di Galeria, 15640 kHz: QSL in 3 weeks, v/s Ken Brown. (Artur Fernández Llorella, Malgrat de Mar-SPAIN).

Radio Voyager, 6940 kHz, E-QSL in 2 days for e-report to: radiovoyager@hotmail.com (Artur Fernández Llorella, Malgrat de Mar, SPAIN).

JORDAN

Jordan Radio and Television

This verification letter confirms that Antonello Napolitano, listened to Radio Jordan on 23rd April 2023, from 16.55 to 1705 GMT/UTC, broadcasting from Jordan on 612 kHz (Medium waves).

The following shows the details of his reception report

RECEPTION REPORT

SENDER'S NAME AND ADDRESS: Antonello Napolitano, Taranto TA, ITALY.

E-MAIL: antonello.napolitano@dxfanzone.com

DATE OF RECEPTION: 23 April, 2023

TIME GMT/UTC OF RECEPTION: 16.55-17.05 (19.55-20.05 Amman Local Time)

FREQUENCY: 612 kHz; **WAVELENGTH:** 490 metres

RECEPTION CONDITIONS ACCORDING: 353 meaning: Signal strength: Fair, Interference: Nil, Overall merit: Fair.

PROGRAMME DETAILS: Song "Ashofak Kil Youm" by Mohammad Abdu. At 1700 GMT/UTC (2000 Amman Time) Time pips, Station identification announcement and News by a male speaker in Arabic. After the news I also heard the song "Al3eed 3Eed" by Raed Saed. I hope you can identify the broadcast through these details. If you are interested an audio clip of the above-mentioned contents is available.

JRTV Engineering Director

Eng. Mohammad M. Byouk

24 April, 2023

Radio Jordan (JRTV), 612 kHz: F/D PDF Letter in 2 days! V/S Mohammad Byouk, Engineering Director. Report to this e-mail M.Byouk@JRTV.GOV.JO Finally after more than 30 years I was successful in obtaining a verification from Radio Jordan. In the last 30 years I sent reports and many F/Ups for their defunct shortwave broadcasts which have remained unanswered. In December 2020 I picked up JRTV for the first time on the medium wave frequency of 612 kHz. I sent a reception report and F/Ups but I never got a feedback except for an e-mail read receipt. In the last 12 months I sent further reception reports and Follow Ups and once again no reply! Another frustrating issue was the e-mail address as

messages sent to that e-mail included in the WRTH and JRTV website rj@jrtv.gov.jo often were bounced. But I didn't surrender and, after an in depth research on LinkedIn I found the name of Mohammad Byouk, Director Of Engineering at Jordan Radio and Television Corporation. The next step was to put together the puzzle pieces (all the possible combinations of his given and family name with the domain jrtv.gov.jo). Finally, I received an e-mail read receipt, still not a verification but at least I was 100% sure that a working e-mail address for JRTV was found. But that was not all! E-mails, with attached audio clips, were always quarantined! On 23rd April I sent another fresh reception report and big surprise I got the following e-mail from Mohammad Byouk with attached a F/D PDF letter on JRTV company letter! He wrote: *"Thanks you for your Radio reception report, and allow me to introduce myself, I'm Mohammad Byouk, Engineering Director for Jordan Radio and Television, JRTV since Mar 2020. I'm really sorry that no one has paid any attention to your earlier reports. We hereby confirm our broadcast of Mediumwave frequency 612 kHz, from 230m Guyed Mast Tower broadcasting from "Shobak Radio Station" south of Jordan, Just off the King's Highway 190 km (118 miles) south of Amman and less than an hour north of Petra. I'm attaching a self-made letter with your requested information of reception report and info, I hope this would be good enough as an appreciation for your valuable report"*. (Antonello Napolitano, Taranto, ITALY).

KUWAIT

Radio Free Europe/Radio Liberty, via Sulaibiyah, 15090 kHz: E-QSL in 6 weeks. v/s Ken Brown. (Artur Fernández Llorella, Malgrat de Mar, SPAIN).
