

DX Fanzine No. 117 – June 2023

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at www.dxfanzine.com and www.dxfanzine.org. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. **Next deadline: 30.06.23**

Please send your contributions to: dxf@dxfanzine.com **EDITOR:** Antonello Napolitano (AN).

MAILBOX: Hello from Finland ! Thanks a lot for having a link to my internet page in your DX Fanzine list of useful log links. That site has been malfunctioning recently, so I have decided to completely get rid of it on May 11:th. My new site is here: <https://betajbk.blogspot.com> and my loggings as of May 1:st are there too. DX Fanzine is a valuable resource to me for finding out what the contributors have been receiving. Best Regards and 73 ! Jouni, member JBK of the Finnish DX Association

QSL 129 Via Norwegian Coastal Radio South (IGQ) 17.05.2023 18:08UTC

Dear Carlos Alberto Erdmann,
I hereby confirm that you have been listening to our transmission.
Please see page two in this letter for details.

Due to modernizing- and reorganizing process from January 1st 2018, Telenor coastal radio reduced from five down to two coastal radio stations - collocated with JRCC (Joint Rescue Coordination Center) south- and north Norway. The name of coastal radio station Rogaland radio, Tjoeme radio and Floroe radio was changed to new name - Norwegian coastal radio south. We are now 24 operators and operate primary on VHF and MF. Our prime functions are distress, urgency and safety-traffic (we also covers world wide with medico-service), but we still have some public services (routine-traffic). Our geographical responsibility is south of 65N - north of 65N is Norwegian Coastal Radio North. We are a part of Telenor (Telephone Company) and not owned by the government.

You can also follow us on social medias (text only in Norwegian):

Best regards and 73 to you

Inhambane (Mozambique): an attractive city, not only for its magnificent beaches...

The town of Inhambane is 470 km north of Maputo and is the capital of the Inhambane Province and therefore home to a provincial station of Radio Mozambique. It is situated on a peninsula overlooking a bay and according to the 2017 census has a population of 79,724. The city is known for its nearby

beaches of “Tofo” (Wonderful) and “Barra” which attract a lot of tourists from South Africa. I was there in September 2012 and while wandering around the city I came across the building of “Radio Mozambique E.P. de Inhambane”. I didn't think twice about going in for a visit but an annoyed secretary stopped me and told it was not possible. However, she introduced me to the director of the station, Mr Jeremias Angelo, who was available to answer my questions. When I told him that I was coming from Italy, he replied that he was a fan of the famous Italian Football Club “Milan” and that he was aware of “Bunga Bunga” (the scandal over the evening parties which contributed to Silvio Berlusconi's downfall as Italy's Prime Minister in 2011, marking the end of his fourth government). This is the account of that meeting, the notes of which I had lost and found again after 11 years! Although this article is no longer fresh I thought its contents might still be of interest.

“Emissor Provincial de Inhambane” broadcasts on both VHF-FM and medium waves. The frequencies are 101.6 MHz and 1206 kHz, which is quite often heard in Europe during winter season. It has also FM relays stations in Massinga (89.9 FM),

Maxixe (104.1 FM) and Nhampossa (105.1 FM). Although the station is also being heard overseas, they have never operated on short wave tropical bands. Its Representative, Mr. Jeremias Angelo confirms: *“We have never used short waves. Only provincial stations from Maputo, Beira and Nampula do that”*.

RM Inhambane broadcasts news, educational programmes about several aspects of life, entertainment and music. It also carries commercials. *“We air commercials of private-owned ventures as well as public companies. But we don’t broadcast announcements of religious nature as Mozambique is a lay state”*, says Mr. Angelo.

The station is on the air from 05.00 to 24.00 hours (Local Time). Most of its programmes are locally-produced but there are also some, like the news, relayed from the central station in Maputo. It serves the whole of Inhambane province and broadcasts in Tshwa, Tonga, Copi and Portuguese languages to a population of around 1.5 million people.

EP de Inhambane not only broadcasts music but also promotes local musicians and artists. *“The aim of Radio Mozambique – points out Mr. Angelo - is to play music from our country. Our station promotes artists from, first of all, Inhambane and then Mozambique, Africa and other continents. There is a show*

called “Ngoma”, which means music from Mozambique, aired from Maputo but relayed by all provincial stations. It promotes young musicians. Demo tapes of their songs are collected from all over the country”.

Another programme produced in the capital and relayed by EP de Inhambane (and all other provincial stations) is the live coverage of football matches played in the national League of Mozambique. The station also gives coverage to local sports teams with contents produced in Inhambane.

There are currently about 73 persons working at Radio Mozambique Inhambane. Most of them are journalists or producers. *“Until a few years ago - explains the Director – there was a sharp separation between speakers and journalists. Today is different, as any journalist should be also able to read news bulletins. This process gradually started about ten years ago”*.

Digital equipment plays an increasingly important role in Radio Mozambique Inhambane programme production. Although old Revox recorders are still in use, many of its programmes are digitally recorded.

“Because many spare parts are no longer stocked by the manufacturers, old reel-to-reel recorders or cassette player are giving way to hard discs and other sound sources”. Anyway – says Mr. Angelo - *we intend to use them until they works. Once they cease to work properly, instead of being repaired, they will be changed with new digital devices”*.

Emissor Provincial de Inhambane is one of the few, in Mozambique which is connected online with the central station in the capital Maputo. *“We can play the same music aired from the capital”*, says its Director.

According to Mr. Angelo in the town of Inhanbane there is no studio to record discs. Despite this, EP de Inhambane is able to play new singles from record labels as soon as soon as they are first played by the central station in the capital. *“That’s why we are one of the few provincial stations in the country which are connected online with Radio Mozambique in Maputo”*.

This article is based on an interview to the then director of “Emissor Provincial de Inhambane”, Mr. Jeremias Angelo (today He is “Administrador de produção” at Radio Mozambique), done in Inhambane in September 2012. Thanks to Mrs. Leopoldina Samuel de Carvalho for assisting me for translation from English to Portuguese and from Portuguese to English. (Antonello Napolitano).
