

DX Fanzine No. 121 – October 2023

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at www.dxfanzine.com and www.dxfanzine.org. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. **Next deadline: 28.10.23**

Please send your contributions to: dxf@dxfanzine.com **EDITOR:** Antonello Napolitano (AN).
LAST UPDATED: 1 October 2023, at 19.15 UTC. Web: www.dxfanzine.com www.dxfanzine.org
The cover photo shows the transmitter site in Junglister (Germany) of RTL (Radio Luxembourg). Until a few years ago it was easily heard across Europe on the Long wave frequency of 234 kHz.

Dear Juan Carlos,

Your data is correct. I can confirm that you did tune in to CBC Radio One's [The World This Hour](#) newscast and [The World](#) program.

You have an amazing microphone windshield collection. It's great to hear from people like you with such a wonderful hobby who find us from all parts of the world.

Thank you very much for writing.

Best,
Meredith

Good morning from St. John's Newfoundland, the most easterly point in North America.

Juan Carlos I hope this email finds you well and just confirming that you were listening to our local station here. If you want to see more about VOCM visit vocm.com.

Best wishes, I look forward to spending time in Spain when I retire.

Mike

CHILE

Valparaíso, 26 de septiembre de 2023

Señor Ariel O. Torres
ARGENTINA
=====

Estimado Ariel, desde la ciudad chilena de Valparaíso le enviamos un afectuoso saludo.

Aquí le estamos enviando la respuesta afirmativa a la recepción de nuestra radio desde su país, el 4 de julio de 2023 en nuestra frecuencia de 630 KHz. de AM, a las 07:25 hs., transmitiendo nuestra habitual programación matinal.

CB63 Radio Stella Maris pertenece a la Diócesis de Valparaíso. Inició sus transmisiones el 1° de octubre de 1996. Es, por definición, una radio que Evangeliza, entregando servicio a toda la comunidad, cubriendo con sus programas necesidades de cultura, noticias, entretenimiento e información. También tenemos espacios de ayuda solidaria. Destinamos una parte importante de la programación a las comunidades parroquiales, pastorales y laicas. Todo esto convierte a Radio Stella Maris en una ventana de conexión espiritual y de entretenimiento para nuestros oyentes.

Lo felicitamos por su actividad de radioescucha, Ariel, y lo invitamos a seguir en la sintonía de Radio Stella Maris a través de nuestro canal de AM o a través de nuestra página web.

Cordialmente,

Hans Kittsteiner Orellana
Director CB63 Radio Stella Maris

CB63 Radio Stella Maris, 630 kHz: F/D e-QSL Letter a few hours after a phone call to Marcela, secretaria. A first call to the station was replied by its Director Mr. Hans Kittsteiner Orellana, but despite his promise to acknowledge my report I didn't get any reply. E-mail: secretaria@radiostellamaris.cl Heard during DX Camp at La Consulta, provincie de Mendoza in Argentina. (Ariel Osvaldo Torres, Buenos Aires, ARGENTINA, via Facebook Group “QSL”).

CB150 Radio Trasandina, 1500 kHz: F/D QSL letter after a call to the station which was replied by its director Mr. Cesar de Salamanca. I explained to him how to write a formal QSL Letter and He did so. E-mail address: publicidadtrasandina@gmail.com. Heard during DX Camp at La Consulta, province de Mendoza in Argentina. (Ariel Osvaldo Torres, Buenos Aires, ARGENTINA, via Facebook Group "QSL").

Los Andes, 19 de septiembre de 2023.

Señor
Ariel Osvaldo Torres
San Andrés, Buenos Aires, Argentina

VERIFICACIÓN DE INFORME DE RECEPCIÓN

Estimado oyente,

Recibimos su atento e-mail del 4 de agosto y aquí tiene su verificación de escucha. Es para nosotros una alegría saber que sintonizó nuestra radio en la localidad de La Consulta, en la provincia argentina de Mendoza.

Su informe de recepción es correcto. Por lo tanto, le confirmo que el día 2 de julio de 2023, entre las 01:20 y las 01:55 horas, en la frecuencia de 1500 kilohertz, AM, usted escuchó CB150 Radio Trasandina, emitiendo un espacio de medicina natural.

Para su conocimiento le contamos que recientemente Radio Trasandina recibió un reconocimiento por su trayectoria de 59 años de transmisiones ininterrumpidas en el Palacio de Gobierno Salón Prieto, junto a grandes voces de la Radiofusión de Chile.

Le estamos muy agradecidos por el seguimiento de nuestras emisiones. Reciba un cordial saludo desde Los Andes, Chile.

César de Salamanca
Director de CB150 Radio Trasandina

RADIO SENDA CRISTIANA "Guiando tu camino hacia el Señor Jesucristo, con enseñanzas bíblicas"

Cotahuasi, Arequipa, Viernes 8 de Septiembre de 2023.

Sr. Ariel Osvaldo Torres
Argentina

Estimado Ariel, recibe un saludo cordial de parte de quienes hacemos Radio Senda Cristiana, guiando el camino de nuestros oyentes hacia el Señor Jesucristo, con enseñanzas bíblicas.

Nos dio mucho gusto recibir su reporte de sintonía, que para nosotros es muy valioso, ya que nos permite conocer hasta dónde llega nuestra señal. Desde que estamos transmitiendo en 4820 Khz. hemos recibido reportes de Europa, Oceanía y América. Agradecemos a Dios que nuestra señal esté llegando a tantos lugares.

También agradecemos los videos que nos ha enviado. Efectivamente, los datos aportados, imágenes y sonido corresponden a la programación de Radio Senda Cristiana, transmitiendo el domingo 2 de julio de 2023 desde el cañón del Cotahuasi, en Arequipa, Perú, en los 4820 Khz. SW, Onda Corta.

Que Dios lo bendiga, Ariel. Muchísimas gracias y hasta pronto.

Jeremías Cusi Churo
Departamento de producción

Fredy Hanco Hanco
Gerente de Radio Senda Cristina

PERU

Radio Senda Cristiana, 4820 kHz: F/D e-QSL letter in a few hours after a phone call which was replied by Mr. Jeremías Cusi Churo, of "Departamento de Producción". I explained to him how to write a formal QSL Letter and He did so. E-mail address:

radiosenda4@gmail.com

Heard during DX Camp at La Consulta, province de Mendoza in Argentina. (Ariel Osvaldo Torres, Buenos Aires, ARGENTINA, via Facebook Group "QSL").

TAIWAN

Radio Free Asia, via Paochung, 11850 kHz: F/D QSL card in 16 days for e-report to the following e-mail address: qsl@rfa.org (Jürgen Waga, Berlin, GERMANY).

Radio Taiwan International, 11995 kHz: F/D QSL card in 42 days for e-report to German Service: deutsch@rti.org.tw (Jürgen Waga, Berlin, GERMANY).

THAILAND

Radio Thailand (HSK9), 7475 kHz: QSL Card received by post in 52 days. Report in English sent to: rthworldservice@gmail.com (Christian Ghibaudo, Nice, FRANCE).

VANUATU

Radio Vanuatu, 7260 kHz: F/D E-QSL in a few hours for e-report to: robertw@vtbc.vu (Jürgen Waga, Berlin, GERMANY).

Dear Mr. Carlos Alberto Erdmann,

Thank you for your reception report.
Date : 3rd September 2023
Frequency : 15215 KHz
Time : 12:00 - 12:30 hours UTC
Transmitter Site : Dhabbaya, UAE
Transmitting Power : 250 Kw
Programme : Gaweylon
Language : Central Tibetan

With Kind Regards

Anil R. Alfred
Director

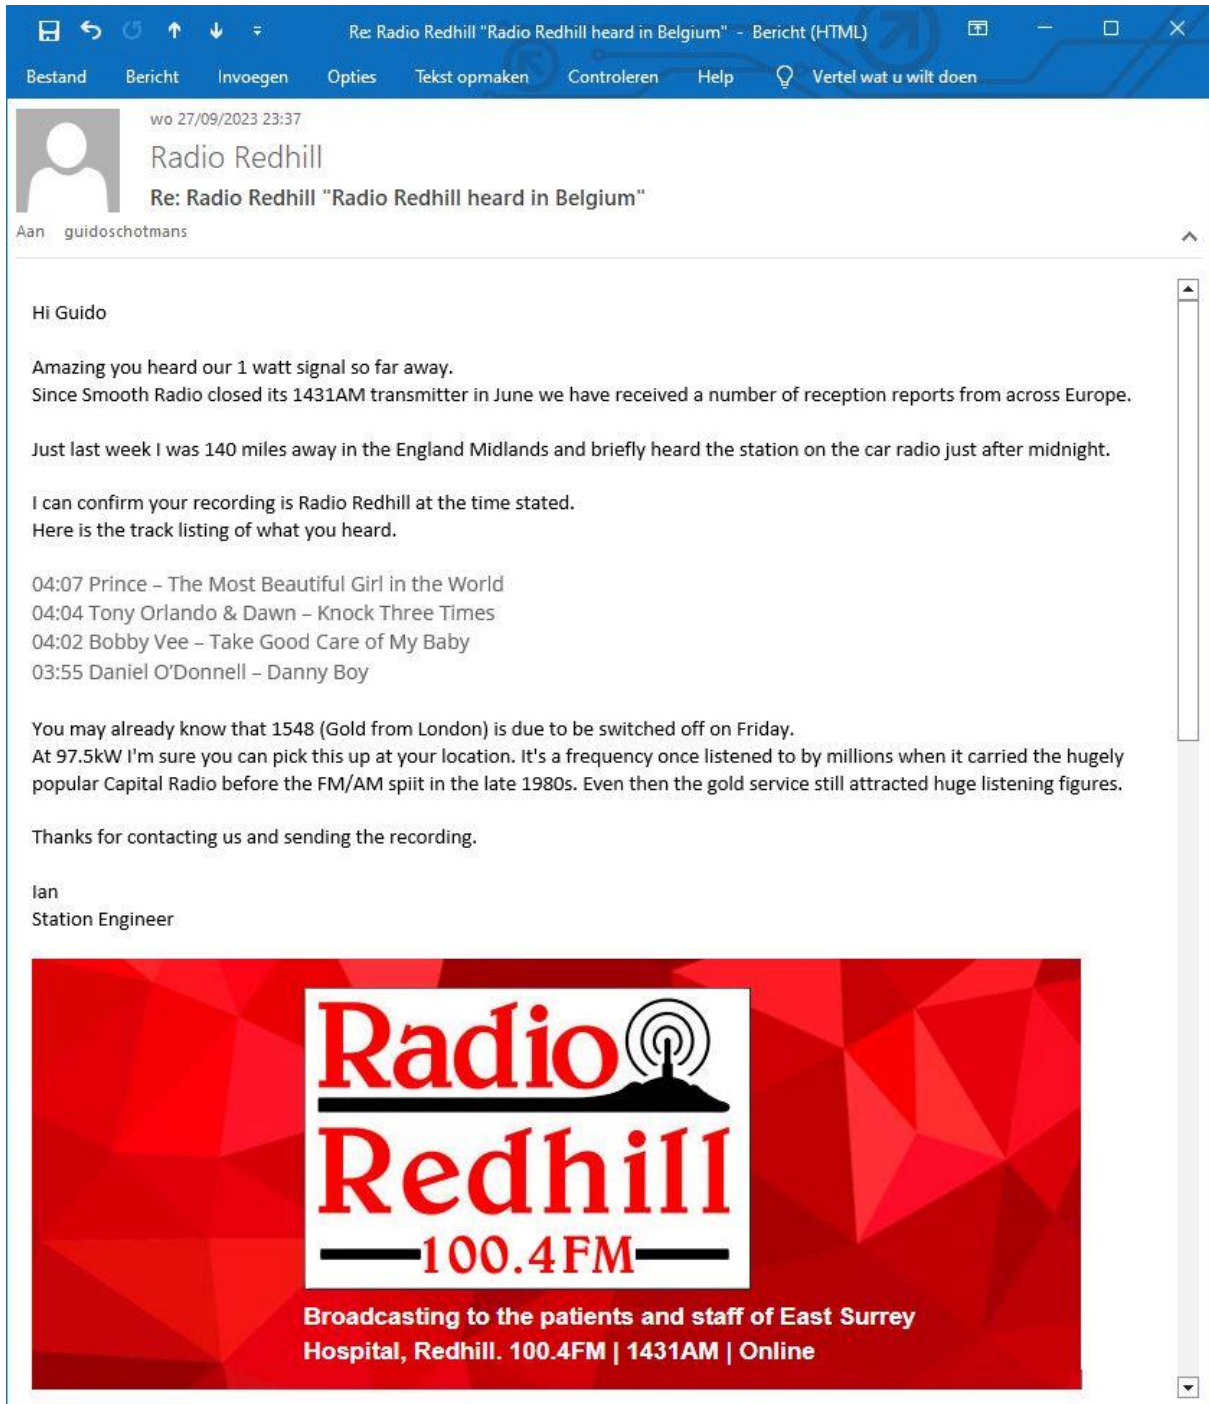

UNITED ARAB EMIRATES

Gaweylon Tibetan Radio, via Dabayya, 15215 kHz: F/D e-QSL in 3 days. The report was sent to the following E-mail address: gaweylon@gmail.com (Carlos Alberto Erdmann, Vera Cruz, BRAZIL, via Facebook Group "QSL").

Gaweylon Tibetan Radio, via Dabayya, 15215 kHz: F/D e-QSL in 8 days. Heard via Kiwi SDR Izghawa, Qatar. E-mail address: gaweylon@gmail.com (Juan Carlos Pérez Montero, Valladolid, SPAIN, via Facebook Group "QSL").

UNITED KINGDOM

Radio Red Hill, 1431 kHz: N/D e-mail message in 11 hours. Report sent via webform at: <https://radioredhill.uk/contact-us/> (Guido Schotmans, Merksem, BELGIUM, via Facebook Group "QSL Chasers").

The screenshot shows an email interface with a blue header bar. The subject line is "Re: Radio Redhill 'Radio Redhill heard in Belgium' - Bericht (HTML)". The sender is "Radio Redhill" with a timestamp of "wo 27/09/2023 23:37". The recipient is "guidoschotmans".

The email body contains the following text:

Hi Guido

Amazing you heard our 1 watt signal so far away.
Since Smooth Radio closed its 1431AM transmitter in June we have received a number of reception reports from across Europe.

Just last week I was 140 miles away in the England Midlands and briefly heard the station on the car radio just after midnight.

I can confirm your recording is Radio Redhill at the time stated.
Here is the track listing of what you heard.

04:07 Prince – The Most Beautiful Girl in the World
04:04 Tony Orlando & Dawn – Knock Three Times
04:02 Bobby Vee – Take Good Care of My Baby
03:55 Daniel O'Donnell – Danny Boy

You may already know that 1548 (Gold from London) is due to be switched off on Friday.
At 97.5kW I'm sure you can pick this up at your location. It's a frequency once listened to by millions when it carried the hugely popular Capital Radio before the FM/AM split in the late 1980s. Even then the gold service still attracted huge listening figures.

Thanks for contacting us and sending the recording.

Ian
Station Engineer

At the bottom of the email is a red banner for Radio Redhill. The banner features the station's logo, which includes the text "Radio Redhill" in a large, bold, red font, with "100.4FM" below it. The logo also includes a stylized antenna icon. Below the logo, the text reads: "Broadcasting to the patients and staff of East Surrey Hospital, Redhill. 100.4FM | 1431AM | Online".

UNITED STATES OF AMERICA

WFED, 1500 kHz: N/D e-QSL in 30 minutes. NB: heard via kiwi SDR Bjargtangar, Iceland. E-mail: george.molnar@wtop.com V/S: George J. Molnar, Director. (Juan Carlos Pérez Montero, Valladolid, SPAIN, via Facebook Group “QSL”).

Reception Report: WFED Federal News Network, 1500 KHz AM from Washington D.C. (USA) from 03:00 to 03:45 UTC on 23 August 2023 (UTC) from Valladolid (Spain) via kiwiSDR Bjargtangar, Iceland

WOR -AM, 710 kHz: N/D e-QSL in 1 day. NB: heard at New York (At Manhattan hotel). E- mail address: JOSHADDEN@iheartmedia.com V/S: Josh Hadden, Vice President, Engineering and IT New York City (Juan Carlos Pérez Montero, Valladolid, SPAIN, via Facebook Group “QSL”).

WWVH, 10000 kHz: F/D QSL Card, Info sheets in 15 days. E-mail address: wwwvh@nist.gov (Michele Gasparri, Civitanova Marche, ITALY, via Facebook Group “QSL”). .

URUGUAY

CX26 Radio Uruguay, 1050 kHz: F/D e-QSL in 24 hours. The report was sent to two e-mail addresses: correo@radioactividades.org and radioactividades.sodre@gmail.com V/S: Luis Ignacio Moreira, Productor del programa "Radioactividades". The station belongs to the network Radiodifusión Nacional del Uruguay, and broadcast from Santiago Vázquez, in Montevideo with a 50 kw transmitter by Nautel and 1/4 wave antenna. Heard during DX Camp at La Consulta, province de Mendoza in Argentina. (Ariel Osvaldo Torres, Buenos Aires, ARGENTINA, via Facebook Group "QSL").

The image shows a QSL card for Radiodifusión Nacional del Uruguay. The card features the national flag of Uruguay on the left and the station's logo on the right. The text on the card reads: "Radiodifusión Nacional del Uruguay - Ministerio de Educación y Cultura", "TARJETA QSL", "Por la presente se certifica que Ariel Osvaldo Torres", "Ha recepcionado nuestra emisora Radio Uruguay", "Operando en la frecuencia de 1050 khz", "La recepcion se ha efectuado en Mendoza ,República Argentina", "Montevideo 26 de septiembre de 2023". At the bottom, there are logos for "Dirección de Radiodifusión Nacional Uruguay", "Medios Públicos Uruguay", "Radio Clásica", "Radio Uruguay", "Radio Cultura", and "Radio Babel".

Yolanda López Stepping Down as Acting VOA Director

Earlier this month, Yolanda López, Voice of America's acting director, announced her departure from the news organization to take a position outside the federal government.

"Over the past eight years at this agency, I've experienced both wonderful and challenging moments, forming lasting memories and friendships that I'll carry with me for a lifetime," López said in a statement to VOA staff. "Together, we've navigated

through wars, conflicts, a pandemic, natural catastrophes, elections, special coverages, protests and more. I'm deeply grateful for the support and resilience each of you has shown in such critical moments."

Prior to her appointment as Acting VOA Director in January 2021, López served as Director of the VOA News Center, where she oversaw all content production and editorial decision-making. As a veteran journalist and producer, she joined VOA in 2015 as the Latin America Division Director. Under her leadership, López generated significant audience growth in the region through media partnerships and affiliations.

“During her more than two-and-a-half year tenure as Acting Director, Yolanda guided VOA through the COVID-19 pandemic, oversaw the evacuation of VOA journalists from Afghanistan, and supported global coverage of the Russian invasion of Ukraine,” said Amanda Bennett, CEO of the U.S. Agency for Global Media. “Yolanda did it with a profound respect for VOA’s mission and its charter, and with a deep commitment to journalistic independence, press freedom, and the protection of journalists around the world.”

On October 1, Acting Director for VOA Programming John Lippman will succeed López as VOA’s acting director.

"It has been a privilege to work closely with Yolanda López over the past two and a half years and it is an honor to follow her as VOA Acting Director," said Lippman. "My approach as Acting Director will be similar to Yolanda's, focusing on VOA's mission to provide our audiences around the world with truthful, comprehensive news coverage, on protecting our journalists and on getting our staff the resources they need."

As Acting Director for Programming since January 2021, Lippman managed VOA's 48 different language newsrooms to provide news and information to a global audience. During his nearly 15-year tenure at the agency, Lippman has served as Acting Director of USAGM's Office of Performance Review, interim General Manager of the Office of Cuba Broadcasting, and as VOA's Deputy Director for Programming.

FM DX VIA TROPO, SAPERNE DI PIU'... di Andrea Lawendel

«Confesso di non aver ancora capito le dinamiche dell'FM DX via tropo. C'è solo da monitorare o ci sono anche siti da monitorare che segnalano condizioni favorevoli?» mi chiede Antonello Napolitano in margine immagino alla pubblicazione di alcune mie segnalazioni di FM DX in modalità tropo ducting qui dall'isola di Favignana (da dove purtroppo devo ripartire tra poco). Premettendo che la mia quindicennale esperienza di ascolto su quest'isola non fa di me uno specialista del fenomeno, la risposta è che nulla a mio parere può

davvero sostituire un attento monitoraggio della banda FM per cogliere condizioni favorevoli che possono essere molto estemporanee e mutevoli. Tra le due modalità di ricezione a lunga distanza in FM, tropo e E sporadico sono abbastanza diversi tra loro. Una basata su "guide d'onda" determinati dagli strati di inversione termica a bassa quota, l'altra su complesse rifrazioni a 80-100 km di altezza. Nelle differenze ci sono anche dei vantaggi in chiave predittiva. Il tropo è essenzialmente un fenomeno meteorologico e come tale viene studiato ed è soggetto a possibili modelli "calcolati". Di sicuro, la fonte primaria di questo tipo di previsioni è il sito di William Hepburn, inventore dell'Hepburn Tropo Index (<https://www.dxinfocentre.com/propagation/hti.htm>) e autore delle mappe predittive costantemente aggiornate, che sono un punto di riferimento molto attendibile (lo possono verificare tutti sul campo: <https://www.dxinfocentre.com/tropo.html>)

Poi naturalmente c'è il "crowd sourcing" di siti come FMlist, che dà sicuramente una priorità all'E sporadico per i suoi servizi di segnalazione (basati appunto sull'insieme delle segnalazioni che vengono man mano pubblicate dagli iscritti) ma è molto utile anche per seguire l'evoluzione delle aperture in tropo.

Alle mappe di Hepburn e ai vari visual logbook di FMlist si aggiungono le considerazioni che chiunque di noi può fare sulle condizioni del tempo. Il tropo ducting su percorsi marini, il più spettacolare e produttivo dal punto di vista delle distanze coperte, è una bestia stranissima. Richiede condizioni molto stabili sul piano delle temperature e dei venti (ed è quindi nemico delle perturbazioni improvvise, dei fronti nuvolosi complessi, anche se non necessariamente la presenza di cielo coperto esclude le condizioni tropo). Qui a Favignana si capisce subito quali sono le giornate potenzialmente favorevoli, spesso la provenienza del vento è correlata alle direzioni prevalenti dei segnali (la Libia occidentale, a 600 km, è spesso contrassegnata dalla presenza di scirocco e austro; la Spagna dal maestrale, la costa tirrenica da tramontana e grecale), ma sono regole di massima che non escludono certo eccezioni anche importanti.

Un altro fattore è proprio legato alla geografia dei percorsi. Le mie osservazioni confermano che il punto di trasmissione e di ricezione devono essere collegati da una continuità della superficie marina. Visualizzando queste direttrici su Google Maps è facile verificare che un tracciato interrotto da un'area estesa di terra interrompe questa continuità e blocca completamente i "condotti". Io qui faccio fatica ad ascoltare l'Algeria - a parte qualche località costiera nord-orientale - perché i rilievi tunisini agiscono da barriera. Basta utilizzare lo strumento di misurazione delle distanze per controllare questo tipo di continuità e capire quali zone possono essere target e quali no. Qui da Favignana, per esempio, c'è una stretta angolatura "solo mare" che mi consente di ricevere Malta a circa 300 km da me. Ma già la costa libica di Misurata è schermata dalla striscia di territorio sud-occidentale-meridionale della Sicilia (non parliamo di Tobruk, anche se i 1200 km e rotti che mi separano da Tobruk sarebbero teoricamente colmabili (o i 950 di Benghazi). Sono diversissime le dinamiche del tropo non marino tipicamente serale che riguarda per esempio gli ascoltatori inglesi e olandesi verso l'interno della Francia, della Germania e persino della Svizzera. Non parliamo delle attività tropo e non tropo (vedi TEP e Spread F) oggi praticate da diversi appassionati brasiliani.

ITALY ON MEDIUM WAVES

Welcome to this 4.6 edition of "List of private MW stations in Italy". Unlike other lists that you can find over the Internet, this publication only lists stations currently on the air, expected to start operation very soon or temporarily off-air. Also included is information on how to contact the stations (E-mail and Web sites), QSL policies and, when known, transmitter powers and future plans. I have compiled this list by assembling information received directly from the stations and my own research. I have done my best to keep mistakes to a minimum. This edition contains 3 new stations: Radio Calcio FVG 1539 kHz, Radio Centrale Milano 1575 kHz and a mysterious religious station which operates from Rimini on 1584 kHz.

Almost all of Italian MW stations are licensed. Despite this, solid data on hours of transmission, programmes, frequencies, and contacts are difficult to obtain because station practices themselves change often. Another point to be mentioned is the fact that frequencies sometimes change, and new ones or old ones appear or reappear. Some stations, especially those unlicensed, are not on the air daily and/or the frequencies rarely tend to be used all the day.

Most stations operate from the North of Italy (especially from the regions of Lombardia, Veneto and Friuli Venezia Giulia), a few from the central part of the country (Toscana, Emilia Romagna, Umbria, Marche, Lazio and Abruzzo) and, after the disappearance a number of years ago of Gold 1593 located in Sicily, virtually none from the South.

I am also aware about other stations which will soon start broadcasts on medium wave (i.e. one from Lenta, in the North West of Italy, on 1449 kHz) but - for the time being - they have been omitted. This list will be regularly updated and more details will be added in future. If you have any corrections, additions, comments or suggestions please don't hesitate to write to: dx@dxfanzone.com – Last but not least: if you find any error (and you are invited to let me know) be advised that it was absolutely unintentional! Antonello Napolitano.
