

## DX Fanzine No. 122 – November 2023

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at [www.dxfanzine.com](http://www.dxfanzine.com) and [www.dxfanzine.org](http://www.dxfanzine.org). The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely. DX FANZINE has also a Facebook Group. You can join it at: <https://www.facebook.com/groups/dxfanzine>

**NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.**

**Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. Next deadline: 30.11.23 Please send your contributions to: [dxf@dxfanzine.com](mailto:dxf@dxfanzine.com) EDITOR: Antonello Napolitano (AN).**

**LAST UPDATED: 1 November 2023, at 13.30 UTC. Web: [www.dxfanzine.com](http://www.dxfanzine.com) [www.dxfanzine.org](http://www.dxfanzine.org)**  
The cover photo shows the new studio/facilities building in Quito of HCJB, that has been under construction all this past year and inaugurated on 29 October. The station broadcasts on FM 89.3 MHz with some relays and on shortwave, on 6050 kHz, this easily heard across Europe. HCJB had an extensive worldwide SW service in foreign languages which ended on 30 September 2009.

**EDITOR'S NOTE** Thank you very much for the huge amount of tips this month. Now we are entering the winter season and we invite you to try some of the fine loggings included in this issue. You are welcome to send us your tips if you use the same format used for DXF. Of course I hope to hear from those of you who never send their contributions. This November DXF is almost complete with all of its usual sections included. For the first time a Reader's Corners is included, too. It would be interesting to know more about your involvement in DXing, so why don't send us a mail? (Antonello Napolitano).

## Signals Discovered, Remotely! Web SDR, an exciting opportunity for everyone to catch DX Stations on Medium Waves.

### DX Logs by Leonardo Bolli

## We have got mail! Reader's Corner: [dx@dxfanzine.com](mailto:dx@dxfanzine.com)

First e-mail is from **Glenn Hauser** commenting the caption to the cover page for October 2023 issue of our bulletin. *“Antonello, Trnx for another DXF. I could not help but notice that your caption to the cover says Junglinster = note spelling, is in Germany. A quick look at Wikipedia etc. confirms it’s in central Lux. Also it was a backup for 234 kHz after the main LW transmitter site moved to Beidweiler - also inside Luxembourg”*. Thanks Glenn for your comment. I invite all of you to not hesitate to drop me a line (as Glenn did) if you notice some errors and/or omissions in DX Fanzine.

Now to my home country (Italy) to say Hello to **Ivan Guerrini**. His e-mail, freely translated from Italian into English, reads as follows: *“Hi Antonello. Thank you very much for everything, for being a liaison with one of DX Fanzine contributors and for the excellent bulletin you forward to us every month.... After some time I am now fixing antenna system and receiving station and soon I want to be back in operation like a few years ago... Thank you”*. Thanks Ivan for writing. Keep up the good spirit. Good to have you back in operation!

Next comes a mail from **Chrissy Brand**, Assistant Secretary General of EDXC which reads: *“Dear EDXC Members, We hope you are well, here is a short update after the successful EDXC conference in Metz. There was a discussion on forming a new committee. The plan would be to engage our members and attract new ones, especially getting the younger generation hooked on DXing and SW/MW/LW listening. From the discussions in Metz, Arto Mujunen, Marcel Rommerts, Harald Süess, and Alfredo Cotroneo were among those who would volunteer to work together to brainstorm some fresh marketing approaches for the EDXC. We're hoping not just to fill the seats but also to rekindle the passion for our hobby among a wider audience and maybe get some younger people involved. If you would like to take part in this new engagement and outreach committee, please email me, [chrissylb@hotmail.co.uk](mailto:chrissylb@hotmail.co.uk) or Alfredo at [alfredo@nexus.org](mailto:alfredo@nexus.org) This seems an exciting way for the EDXC on the next stage of its journey. Christian Ghibaudo and I are now stepping down from our roles as Assistant Secretary General and Secretary General, having been in post since late 2018. We remain fervent supporters of the EDXC and wish it much success in its next steps”*. Everything duly noted. I take this opportunity to express a big thank you to Chris and Christian for their excellent job within EDXC.

A short thank you message for circulating DX Fanzine was received in the last two months from: **Dino Bloise** (USA), **Iain Cameron** (UK), **Klaus Fuchs** (Germany), **Costa Constantinides** (Cyprus), **Jayanta Chakrabarty**, (India) and **Michael Andersson** (Sweden) who writes: *“Thank you very much for another very full issue of DX Fanzine!”*

**Ferdinando Bernasconi**, from Bellinzona, in Switzerland, says in his first e-mail He wishes to receive DXF regularly. No problems, your e-mail has been added to our mailing list, so from now on, you will receive our newsletter every month.

Last but not least our thanks to the following editors for submitting their DX publications: **Babul Gupta** (Asian DX Review), **Wolfgang Büschel** (WWDXC Top News) and **Anatoly Klepov** (RUS-DX). And that concludes this first “Reader's Corner”. Of course I hope to hear from all of you again the next month. Of course, mails from those of you who have never got in touch with DXF are very welcome! I surely will appreciate this. So, let's hear from you in the next weeks. Our e-mail: [dx@dxfanzine.com](mailto:dx@dxfanzine.com) (Antonello Napolitano).

## ITALY ON MEDIUM WAVES

Welcome to this 4.7 edition of "List of private MW stations in Italy". Unlike other lists that you can find over the Internet, this publication only lists stations currently on the air, expected to start operation very soon or temporarily off-air. Also included is information on how to contact the stations (E-mail and Web sites), QSL policies and, when known, transmitter powers and future plans. I have compiled this list by assembling information received directly from the stations and my own research. I have done my best to keep mistakes to a minimum.

Almost all of Italian MW stations are licensed. Despite this, solid data on hours of transmission, programmes, frequencies, and contacts are difficult to obtain because station practices themselves change often. Another point to be mentioned is the fact that frequencies sometimes change, and new ones or old ones appear or reappear. Some stations, especially those unlicensed, are not on the air daily and/or the frequencies rarely tend to be used all the day.

Most stations operate from the North of Italy (especially from the regions of Lombardia, Veneto and Friuli Venezia Giulia), a few from the central part of the country (Toscana, Emilia Romagna, Umbria, Marche, Lazio and Abruzzo) and, after the disappearance a number of years ago of Gold 1593 located in Sicily, virtually none from the South.

This list will be regularly updated and more details will be added in future. If you have any corrections, additions, comments or suggestions please don't hesitate to write to: [dx@dxfanzone.com](mailto:dx@dxfanzone.com) – Last but not least: if you find any error (and you are invited to let me know) be advised that it was absolutely unintentional! Antonello Napolitano.
