

DX Fanzine No. 123 – December 2023

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at www.dxfanzine.com and www.dxfanzine.org. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely. DX FANZINE has also a Facebook Group. You can join it at: <https://www.facebook.com/groups/dxfanzine>

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. **Reception quality abbreviations:** **P** = Poor, **F** = Fair, **G** = Good, **E** = Excellent. **Language abbreviations:** **AA**=Arabic, **CC**=Chinese, **CT**=Catalan, **DD**=Dutch, **EE**=English, **FF**=French, **GG**=German, **HA**=Hausa, **IT**=Italian, **JJ**=Japanese, **KK**=Korean, **PP**=Portuguese, **RM**=Romanian, **RR**=Russian, **SS**=Spanish, **VV**=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. Next deadline: 28.12.23 Please send your contributions to: dxf@dxfanzine.com EDITOR: Antonello Napolitano (AN). LAST UPDATED: 3 December 2023, at 22.45 UTC. Web: www.dxfanzine.com www.dxfanzine.org

The cover photo shows one of the studios of Radio Aparecida broadcasting from Brazil and active on some shortwave frequencies (5035, 6135, 9639 11855 kHz), until a couple of years ago.

Editor's Note: Welcome to the last edition of DX Fanzine in 2023. Let me take this opportunity to wish you all A merry Christmas and a Happy New Year, with many sincere thanks to all who contributed to our newsletter – DX Fanzine - during 2023.

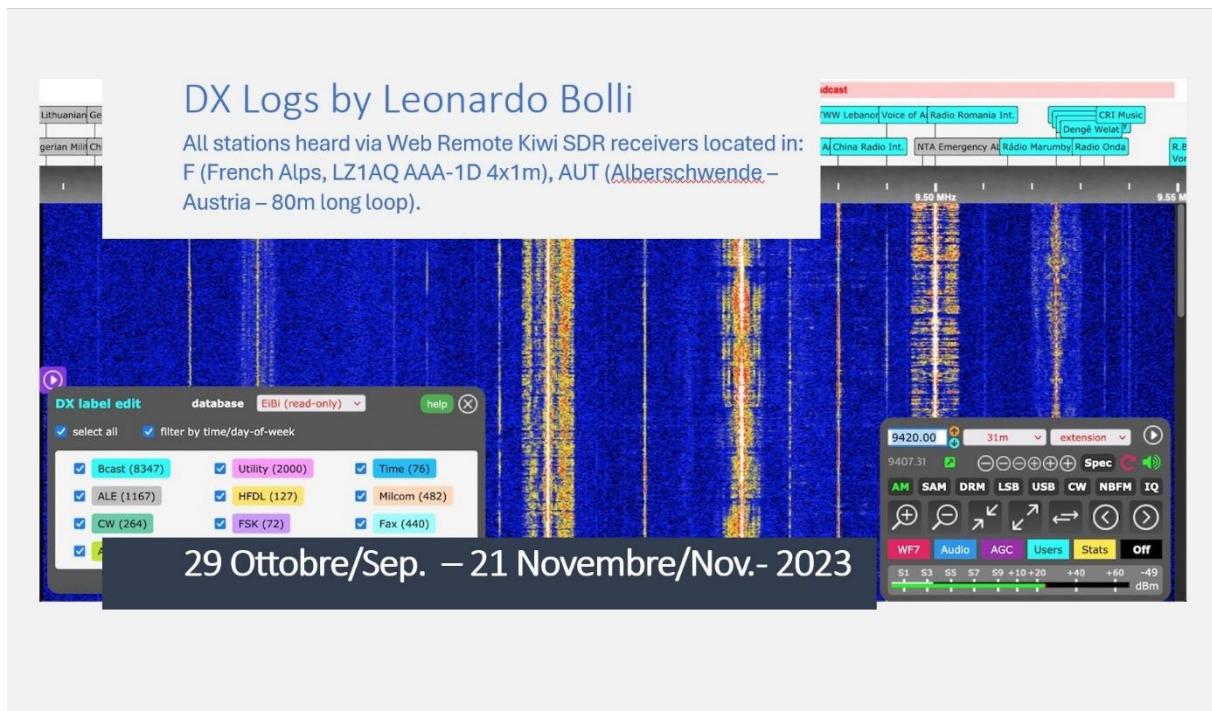

Without your help, it would be impossible to make DX Fanzine as variable and worth reading as I hope I

am doing. Of course, I hope to hear from all of you again in 2024 and would also be happy to hear from those of you who, never or seldom, send contributions to one or more of different sections to DX Fanzine. I surely will appreciate this. So, let me hear from you in the new year!

Once again I managed to make a full packed DXF with a big amount of loggings and all sections included. Unfortunately, this can't be repeated in January 2024. Leonardo Bolli, editor of "Stations Discovered, Remotely" informed me that he has recently suspended chasing hard to hear medium wave stations from Americas, Africa and Asia, as he is now being involved in assembling in his house a monitoring station of VHF FM signals. I am deeply sorry for losing his contribution but at the same time I wish him every success in this new project. Of course, I hope He could be back with us as soon as possible.

With the Israel-Palestine conflict again among major news, I decided to write a history of radio in Palestine with descriptions of the main stations that operated or are still operating from the region of Palestine (Israel and West Bank). The stations which have been included in this article packed with photos and logos are: The Voice of Palestine (Palestinian Broadcasting Corporation), Galei Zahal, Radio Kol Israel and The Voice of Peace. The bad news is that the language used for this article is Italian (Sorry but I was too busy for a translation into English). And that concludes my editorial for this month. See you all again in the new year - I hope, and please take care! (Antonello Napolitano).

Signals Discovered, Remotely! Web SDR, an exciting opportunity for everyone to catch DX Stations on Medium Waves.

Explanation:

DAY	is the day of the broadcast (1=Sunday, 2=Monday, etc.)
FREQ	is the frequency of the broadcast in kilohertz
MB	is the metrebant
AZI	is the direction of the antenna in degrees East of North

Local times are:

Benin	UTC+1	Cote d'Ivoire	UTC+0	Niger	UTC+1
Burkina Faso	UTC+0	Ghana	UTC+0	Nigeria	UTC+1
Cameroon	UTC+1	Mali	UTC+0	Togo	UTC+0

We have got mail! Reader's Corner: dx@dxfanzine.com

First e-mail is from o [Ivan Guerrini](#). His e-mail, freely translated from Italian into English, reads as follows: *“Hello Antonello, after a long time, I am resuming shortwave listening on a regular basis as in the old days. I assembled new antennas, I bought and changed a few radio receivers and, compatibly with work schedules and various commitments, I am now happily sat in front of my radios with headphones on my head. Allow me to submit a short list of tips. I know that there are a few days left until the end of the month, but I already know this week is quite busy for me. I hope it may be of interest for the newsletter that I always read with great pleasure and for which I thank you for your constant sending.73’s and good listening”*. Dear Ivan, I am happy that you appreciate our bulletin and many thanks for submitting shortwave loggings. It doesn't matter if the number of tips is low, what is important is that you are back in operation and want to be an active member of DX Fanzine!

If you speak German, a press release we received from [Radio Taiwan International's German Section](#), could be of some interest: *“Good afternoon! Radio Taiwan International (Rti) is conducting a survey to better understand your expectations of our programmes and to improve the quality of our podcasts. We would appreciate if you could take about 5 minutes to participate in our survey. Your opinion is very important to us. At the end of the survey you will have the opportunity to enter your contact details and receive a gift from Rti as a thank you. Completion of the survey: from now until 10/12/2023. Announcement of the winners: 12/12/2023. Take five minutes to complete the survey and you could win a prize! Link to the campaign: <https://2023appsurvey.rti.org.tw/de>”*.

Next mail comes from [Philippe Bertrand](#), operator of French free radio station, Radio Waves International, which in November celebrated its 40th anniversary: *“Dear friend, here are some info you can put on your next issue. After a break (due to my health) RWI is back on the waves, via Radio Channel 292. Our post address has changed to: (Please don't mention radio's name): Korian, Mr BERTRAND Philippe ch123, 2 rue de la Croix Blanche, F-60290 Monchy Saint Eloi, France”*. Thanks Philippe. Good to know that your health is now good and your Radio Waves International is still active after 40 years since its 1st broadcast.

PIRATESFORPEACE@HOTMAIL.COM
FREE MEDIA WORLDWIDE!

A short thank you message for circulating DX Fanzine was received from [Iain Cameron](#) (UK), [Klaus Fuchs](#) (Germany), [Giò Barbera](#) (Italy), [Roger Larsson](#) (Sweden), [Bart Steenman](#), DJ of the Dutch Pirate station Radio Monique, as well as the organization [“Pirates for Peace”](#) which reads: *“Thanks for the magazine. Please promote the Pirates For Peace, the biggest peace organisation of the planet, promoting and installing free media also in troubled area’s. Put the logo on letters, websites and so on. Regards”*. I 100% agree with your message of peace and mission of creating a network of free media for troubled areas of the world where peace, freedom and justice are still not granted. For more details about their activities, You can write to: piratesforpeace@hotmail.com And that, concludes this recently created “Reader's Corner” for 2023. See you in 2024. Our e-mail: dx@dxfanzine.com I wish you Merry Christmas and Happy New Year. (Antonello Napolitano).

ITALY ON MEDIUM WAVES

Welcome to this 4.8 edition of "List of private MW stations in Italy". Unlike other lists that you can find over the Internet, this publication only lists stations currently on the air, expected to start operation very soon or temporarily off-air. Also included is information on how to contact the stations (E-mail and Web sites), QSL policies and, when known, transmitter powers and future plans. I have compiled this list by assembling information received directly from the stations and my own research. I have done my best to keep mistakes to a minimum.

Almost all of Italian MW stations are licensed. Despite this, solid data on hours of transmission, programmes, frequencies, and contacts are difficult to obtain because station practices themselves change often. Another point to be mentioned is the fact that frequencies sometimes change, and new ones or old ones appear or reappear. Some stations, especially those unlicensed, are not on the air daily and/or the frequencies rarely tend to be used all the day.

Most stations operate from the North of Italy (especially from the regions of Lombardia, Veneto and Friuli Venezia Giulia), a few from the central part of the country (Toscana, Emilia Romagna, Umbria, Marche, Lazio and Abruzzo) and, after the disappearance a number of years ago of Gold 1593 located in Sicily, virtually none from the South.

This list will be regularly updated and more details will be added in future. If you have any corrections, additions, comments or suggestions please don't hesitate to write to: dx@dxfanzone.com – Last but not least: if you find any error (and you are invited to let me know) be advised that it was absolutely unintentional! Antonello Napolitano.

Licensed and unofficial independent broadcasting stations on mediumwave (L means Licensed)

LE RADIO DELLA PALESTINA, di Antonello Napolitano

La radio in Palestina prima del 1948: Palestine Broadcasting Service (PBS)

Gestita dalla Gran Bretagna, la "Palestine Broadcasting Service" (PBS) fu la prima emittente ufficiale a trasmettere dalla cosiddetta Palestina mandataria, un'entità geopolitica esistita tra il 1920 e il 1948, secondo i termini previsti dal mandato per la Palestina della Lega delle Nazioni. I suoi programmi, diffusi in inglese, arabo ed ebraico, ebbero inizio il 30 marzo 1936 dalla città di Ramallah (nella foto l'antenna), dove erano situati sia gli studi che il trasmettitore, il quale operava su 668 kHz con una potenza di 20 kW. La denominazione ebraica della stazione fu concordata in "Kol Yerushalyim" (La voce di Gerusalemme) dopo un confronto con i leader arabi e quelli ebraici che volevano originariamente chiamarla "Kol Eretz Israel" (La voce della Terra d'Israele). Prima che lo stato di Israele nascesse risultavano attive in Palestina altre due emittenti: la stazione clandestina "Palestinian Mujahideen Organization Radio" (Radio dell'Organizzazione dei Mujahideen Palestinesi) e "Near East Radio" (Radio Vicino Oriente). Quest'ultima, fondata nel 1944, fu diretta da Shams al-Din Marsak, un ufficiale britannico convertitosi all'Islam, e fu la radio internazionale della Palestina. Operava da Jaffa ed il suo scopo era quello di rafforzare le relazioni britannico-arabe dopo la sanguinosa politica di oppressione perseguita dal governo di Londra per sopprimere la Grande Rivolta Araba del 1936/1939 che ebbe luogo nella Palestina mandataria, in risposta all'immigrazione ebraica e all'acquisto di terre da parte dell'Agenzia sionista.

La radio in Palestina dopo il 1948: gli israeliani si impossessano del sito di Ramallah

Nel 1948, con la nascita dello Stato di Israele, due aree della regione storica e geografica della Palestina rimasero nelle mani dei palestinesi: la Striscia di Gaza e la Cisgiordania. La Striscia di Gaza passò sotto l'amministrazione del governo egiziano. La Cisgiordania venne invece annessa alla Transgiordania che, insieme alla Cisgiordania orientale, nel 1950 prese il nome di "Regno Hashemita di Giordania".

Una nuova emittente iniziò a trasmettere dall'ex centro trasmettente della PBS di Ramallah, in Cisgiordania, diventando di fatto la stazione radio del Regno Hashemita di Giordania, che si estendeva da Amman a Gerusalemme Est. L'1° marzo 1959 la sede degli studi venne trasferita ad Amman, capitale della Giordania.

Nel giugno del 1967 con la guerra dei sei giorni, i soldati di Tel Aviv conquistarono la Cisgiordania e presero possesso del centro trasmettente di Ramallah, dove dal 1942 era in funzione, sulla frequenza di 677 kHz, un trasmettitore di 20 kW della Marconi, che fu usato per ritrasmettere i programmi di Reshet Dalet, il canale di lingua araba dello Stato di Israele. Il trasmettitore originale della ex PBS risalente al 1936, fu rimosso e demolito prima del 1967 dai giordani che proprio nei giorni in cui scoppiò il nuovo conflitto erano in procinto di installare un nuovo impianto trasmettente di 100 kW donato dalla Germania e costruito dalla Telefunken.

Nessuna stazione radio fu invece mai attiva nella Striscia di Gaza durante l'amministrazione egiziana continuata fino alla guerra di giugno del 1967, quando Israele occupò l'intero territorio.

Nascita dell'OLP e creazione di una radio che dia voce alla lotta del popolo palestinese

Nel 1964 fu fondata al Cairo l'Organizzazione per la Liberazione della Palestina (OLP) che stabilì di ripristinare un servizio radiofonico palestinese. Fu così creata, con sede nella capitale egiziana, la "Voce della Palestina, Voce dell'Organizzazione per la Liberazione della Palestina". Le sue trasmissioni ufficiali iniziarono l'1° marzo

1965 e furono diffuse, non solo attraverso le frequenze dell'emittente egiziana "Voce degli Arabi" ma anche tramite i canali radiofonici di vari Paesi arabi, soprattutto quelli che ospitavano i rifugiati palestinesi. La Voce della Palestina, in qualità di rappresentante dell'OLP era ritrasmessa anche da stazioni radiofoniche indipendenti di Paesi arabi, soprattutto in Giordania, Siria e Libano.

Firma degli accordi di Oslo: Nasce nel territorio dell'ANP la Voce della Palestina (PBC)

Dopo gli accordi di Oslo tra l'OLP e Israele, la neonata Autorità Nazionale Palestinese, diede il via alla creazione di diversi ministeri e istituzioni governative, necessari per gestire gli affari del territorio sotto la sua giurisdizione. Tra queste istituzioni, figurava anche la realizzazione di un ente per la diffusione di trasmissioni radiofoniche e televisive. Per questo motivo, il 13 settembre 1993 fu istituita la "Palestinian Broadcasting Corporation" (PBC). La Radio, assunse ancora una volta la denominazione de "La Voce della Palestina" ed iniziò le sue trasmissioni sperimentali il 2 luglio 1994, diffondendo un discorso del presidente Yasser Arafat. Tuttavia, le trasmissioni ufficiali iniziarono nell'ottobre 1994, con notiziari e programmi prodotti localmente negli studi di Gerico.

Il 24 dicembre 1995, la "Palestinian Broadcasting Corporation" rilevò lo storico centro trasmittente di Ramallah che ospitava un trasmettitore in servizio sulla frequenza in onde medie di 675 kHz. Tuttavia, nonostante il nuovo clima politico nel 1997 il governo di Tel Aviv iniziò a disturbare le sue trasmissioni. In occasione della Seconda Intifada, all'inizio degli anni 2000, le forze armate israeliane bombardarono il trasmettitore radiotelevisivo di Ramallah e fecero esplodere l'edificio che ospitava gli uffici e gli studi (foto).

Un altro episodio, meno cruento ma tangibile della continua tensione esistente tra israeliani e palestinesi anche sul fronte dei mass-media, si è verificato lo scorso 20 marzo, quando il ministro della Sicurezza nazionale israeliano Itamar Ben-Gvir, esponente di un partito di estrema destra, ordinò la chiusura della redazione della "PBC" situata nel quartiere nord-orientale di Gerusalemme di Beit Hanina. *"In base alla mia autorità legale, ordino di impedire l'attività [dell'emittente] ovunque all'interno dei confini dello Stato di Israele", scrisse il Ministro Ben-Gvir in una lettera. Non accetterò e non permetteremo l'incitamento e il sostegno al terrorismo e ai terroristi, né da parte dell'Autorità Palestinese né da parte di qualsiasi altro organismo. Lo Stato di Israele è sovrano e chiunque cerchi di combatterci si troverà fuori".* A seguito di questa decisione la polizia israeliana si presentò nella sede di Gerusalemme della "Voce della Palestina" per notificarne la chiusura e sottoporre ad interrogatorio diversi giornalisti palestinesi. Il provvedimento tuttavia non ha trovato applicazione nel territorio della Cisgiordania, controllato dall'Autorità nazionale Palestinese.

Un altro canale radiofonico affiliato alla Radio e Televisione palestinese, è "La Voce della Palestina, Secondo Programma" ("Voice of Palestine, Second Program"), che opera all'interno della Striscia di Gaza. Le sue trasmissioni ufficiali iniziarono il 30 marzo 2000, in occasione della Giornata Nazionale e col passare del tempo raggiunsero un durata giornaliera totale di 17 ore.

Nel 2010, con decreto del Presidente dell'Autorità Nazionale Palestinese, Mahmoud Abbas, lo status della PBC è stato trasformato da emittente governativa a istituzione pubblica. A partire dal 2015, è stato dato il via ad un processo di digitalizzazione delle trasmissioni. La Voce della Palestina trasmette in FM su 90.50 MHz (Ramallah, Betlemme e Gerusalemme), 99.40 MHz (Nablus, Hebron, Jericho, e la striscia di Gaza) e 89.30 MHz (Jenin e i territori del Nord). Nel frattempo sia in Cisgiordania che nella Striscia di Gaza, sono nate una serie di stazioni radio private.

KOL ISRAEL, La Voce di Israele che si è spenta per sempre

Kol Israel è stata originariamente una stazione radio clandestina dell'Haganah, Organizzazione militare ebraica in Palestina, che trasmetteva da Tel Aviv in onde corte nella banda dei 42 metri e che rimase attiva per un breve periodo.

L'emittente assunse infatti presto una denominazione diversa, a seguito della decisione dell'Haganah che il nome Kol Yisrael sarebbe stato usato con la nascita del nuovo stato, cosa che avvenne, con la dichiarazione di indipendenza di Israele, il 14 maggio 1948.

La stazione ereditò le strutture dell'ex Palestine Broadcasting Service (PBS), emittente ufficiale del Mandato di Palestina creata nel 1936 e che gestiva la stazione Radio Kol Yerushalayim. Tra gli addetti di Kol Israel figurava sia ex personale della PBS che ex personale delle stazioni radio clandestine gestite dall'Haganah.

Kol Yisrael è stata pioniera nell'uso della trasmissione in modulazione di frequenza (FM). Nei primi anni, poteva contare su trasmettitori attivi a Gerusalemme, Tel Aviv e Haifa ma non su quello di Ramallah, già appartenuto alla PBS, in quanto la città era ricaduta nel settore arabo.

Prodotti dall'Organizzazione Sionistica Mondiale in collaborazione con l'Agenzia Ebraica, le trasmissioni per l'estero iniziarono nel 1950 con il nome di Kol Zion La Golah ("La Voce di Sion alla diaspora"). I programmi, volti a favorire la comunicazione tra lo Stato israeliano e la diaspora ebraica, includevano letture dalla Torah, l'insieme dei primi cinque libri della Bibbia ebraica, e documentari sulla vita in Israele. Nel 1958, il servizio per l'estero fu integrato con quello nazionale, ed entrambi iniziarono ad identificarsi in onda con il nome di "Kol Israel".

Gli anni tra il 1958 e il 1965 rappresentarono un periodo di grande espansione per il servizio internazionale in onde corte di "Kol Israel" che diede il via a nuovi programmi in lingua afrikaans, inglese, francese, ungherese, italiana, persiana, rumena e yiddish. Tra il 1960 e il 1963 ci furono anche dei programmi giornalieri in inglese, francese e swahili a destinazione del pubblico africano e si diede inizio alla distribuzione di nastri per la ritrasmissione degli stessi in tutto il continente nero.

Il 1965 fu l'anno in cui venne creata l'Israel Broadcasting Authority (IBA), un ente pubblico indipendente, che ereditò dall'Ufficio del Primo Ministro, il controllo di Kol Israel.

Il 1969 è l'anno in cui il servizio per l'estero di Kol Israel fu notevolmente potenziato con l'acquisto di 4 trasmettitori da 300 kW e l'installazione di numerose antenne dirette verso differenti zone del mondo.

Nel 1973 il servizio radiotelevisivo nazionale abbandonò, su decisione dell'IBA, la denominazione Kol Israel in favore di "Shidurei Israel" ("Israel Broadcasting"). Tuttavia, sei anni più tardi, nel 1979, la denominazione "Kol Israel" fu reintrodotta sia per i programmi radiofonici nazionali che per quelli destinati all'estero.

Con il passare degli anni le trasmissioni in onde corte per l'estero di Kol Israel furono progressivamente interrotte. Il servizio in lingua persiana per l'Iran, è stato l'ultimo programma per l'estero diffuso sulle onde corte ad aver cessato le trasmissioni il 30 giugno 2013.

Tra le curiosità, merita di essere citato il fatto che la notte di Natale, in occasione della Santa Messa celebrata a Betlemme e trasmessa in diretta sulle onde corte, Kol Israel diffondeva a inizio e fine della messa un annuncio in lingua italiana.

Oggi le trasmissioni in lingua straniera diffuse da Israele sono ascoltabili su una delle otto reti radiofoniche nazionali della KAN, il nuovo ente radiotelevisivo pubblico Israeliano che, non senza polemiche, nell'anno 2017 è subentrato all'ISRAEL BROADCASTING AUTHORITY.

Questi notiziari sono ascoltabili in tutto il mondo su Internet e via satellite attraverso il canale WORLD RADIO NETWORK. Dopo lo scoppio, lo scorso ottobre della guerra con HAMAS nella striscia di Gaza, alcuni di questi notiziari sono ritrasmessi anche dall'emittente privata statunitense WRMI, con sede a Miami e trasmettitori situati a Okeechobee nello stato della Florida.

GALEI ZAHAL, anomalia mediatica: radio dell'esercito, democratica e indipendente

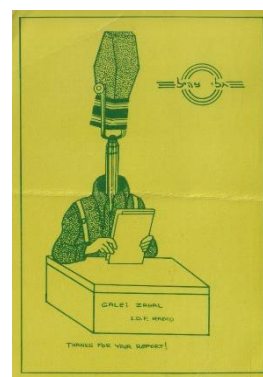

Galei Zahal (nota in Israele con l'acronimo Galatz), o Radio dell'Esercito, è un'emittente radiofonica gestita dall'Israel Defense Force (IDF), l'esercito dello Stato di Israele.

Il personale è composto sia da civili che da giovani militari in servizio regolare, i quali vengono chiamati a ricoprire incarichi come reporter, redattore, annunciatore, eccetera. Galatz è stata la prima stazione radio in Israele a utilizzare in onda l'ebraico parlato in strada nella vita di tutti i giorni strada invece del linguaggio formale normalmente in uso nei media. Le sue trasmissioni hanno avuto inizio il 24 settembre 1950 da uno studio improvvisato a Ramat Gan, mentre il suo status giuridico è stato definito nel 1956. Nel corso degli anni ha operato in onde medie (1287, 1305, 1368 kHz) e, fino a una decina di anni fa, anche in onde corte su 6885 e 15850 kHz.

Attualmente trasmette solo in FM. Con lo scoppio della guerra dello Yom Kippur, Galei Zahal cominciò a trasmettere 24 ore al giorno e per anni è stata l'unica stazione radio israeliana a trasmettere programmi notturni. Il suo palinsesto include musica, notizie, informazioni sulla viabilità, programmi educativi e di intrattenimento per il pubblico in generale e contenuti di carattere militare.

L'emittente è un'anomalia mediatica. Creata nel 1950 come servizio di informazione dell'IDF e strumento per far progredire il processo di socializzazione in Israele, varie modifiche legislative nel corso degli anni l'hanno di fatto trasformata in un servizio di radiodiffusione nazionale totalmente indipendente dal governo e che è addirittura assurdo, a simbolo della libertà giornalistica e del pluralismo. Sebbene tuttora faccia

parte dell'IDF ed è iscritta nel bilancio del Ministero della Difesa, i contenuti dei suoi programmi non sono sottoposti né alla supervisione dell'esercito né a quello di un organo statale terzo di regolamentazione.

Tra i suoi obiettivi primari all'epoca della fondazione - come annunciato nella trasmissione inaugurale da David Ben-Gurion, leader militare e politico considerato il padre fondatore di Israele - oltre a servire le esigenze di difesa e sicurezza del Paese come efficace mezzo di comunicazione per soldati in servizio attivo e riservisti, figurava anche la divulgazione tra i giovani e i nuovi immigrati della conoscenza di Israele e della lingua ebraica.

Ovviamente, oggi Galei Zahal ha realizzato ampiamente quegli obiettivi, andando in varie direzioni, una delle quali ha previsto l'introduzione del commento politico, che ha causato non pochi problemi ai vari Capi di stato maggiore che si sono susseguiti alla guida dell'esercito. Diversi di loro, stanchi di dover rispondere continuamente alle critiche dei politici infastiditi dalle opinioni che i vari commentatori esprimono all'interno dei programmi, hanno cercato negli ultimi 40 anni di chiudere l'emittente o di distaccarla dall'esercito, ma senza successo.

VOICE OF PEACE, il sogno di un visionario pacifista

Il 18 maggio 1973 ebbero inizio le trasmissioni di Voice of Peace, che trasmetteva da una nave ancorata nelle acque al largo di Israele su 1539 kHz. Suo fondatore fu l'ex pilota israeliano di jet militari, divenuto un fervente attivista pacifista Abie Nathan. Un visionario, arrestato più volte dalle autorità israeliane per aver violato la legge che proibiva ai cittadini di avere contatti con i palestinesi dell'OLP. Nei suoi vent'anni di esistenza, "The Voice of Peace" si guadagnò molta popolarità soprattutto tra i giovani. È stata l'unica stazione radio in Medio Oriente a trasmettere musica mainstream dalle classifiche mondiali "Top 40" e a utilizzare l'inglese come lingua principale, pur mettendo insieme notizie israeliane e arabe.

Voice of Peace ha operato non solo in onde medie su 1539/1540 kHz, ma anche in FM su 100 MHz e per un breve periodo, anche sulle onde corte in anni diversi, su 6235, 6240 e 6265 kHz. I programmi erano in onda 24 ore su 24 ma talvolta ci furono delle riduzioni per mancanza di personale, scarsità di carburante o manovre militari nelle vicinanze.

Le sue trasmissioni ebbero termine il 28 novembre 1993 quando Abie Nathan decise di far affondare intenzionalmente in acque internazionali la nave "Peace ship" dalla quale venivano irradiate le trasmissioni. Tra i motivi che lo portarono ad assumere questa drastica decisione, dopo la mancata promessa delle autorità di garantirgli una licenza di trasmissione, non solo la firma tra palestinesi ed israeliani degli accordi di pace di Oslo, che segnava il raggiungimento della missione che si era prefissato di compiere con la creazione di Voice of Peace ma anche le pesanti perdite finanziarie. Voice of Peace, grazie all'iniziativa di un gruppo di volontari e sostenitori, rinacque nell'agosto del 2009 con trasmissioni

in streaming via internet all'indirizzo web www.thevoiceofpeace.co.il Tuttavia, nonostante l'utilizzo di una tecnologia meno costosa rispetto al passato i problemi economici, dovuti in parte alla pandemia SARS Covid 19, portarono nel luglio del 2020 ad un nuovo stop delle trasmissioni. Una campagna di raccolta fondi è tuttora in corso da parte dei suoi animatori per garantire a Voice of Peace una nuova rinascita.

European, Private Shortwave Stations

December 1st 2023

Only legal stations are included. Most stations use low power, but a few use several kW. All times are given in UTC. Abbreviations: D = Germany, DNK = Denmark, FIN = Finland, NL = the Netherlands, NOR = Norway, A.o. = and others, F.pl.: future plan, Int'l = international, irr. = irregular, 24/7 = twenty-four hours a day, seven days a week, Dec = December, Mo = Monday, Tu = Tuesday, We = Wednesday, Th = Thursday, Fr = Friday, Sa = Saturday, Su = Sunday
