

## DX Fanzine No. 125 – February 2024

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual medium/short wave listeners or ascertained from different sources. DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is a compiled publication (not cut-and-paste) intended for sharing of DX reception notes, loggings, QSL details, and general news about medium and short wave (AM) broadcasting stations. As most printed DX magazines went out of print or changed to "digital-only" versions of their former selves, we set about making a bulletin as simply as possible (and free of charge!) that covered essentially two things: what is being heard on both, medium and short waves, and how to get a QSL verification from a radio station. Not only DX Fanzine is being distributed each month, free, via E-mail, to various Clubs, organizations and individuals worldwide but is also available on the web at [www.dxfanzine.com](http://www.dxfanzine.com) and [www.dxfanzine.org](http://www.dxfanzine.org). The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely. **DX FANZINE has also a Facebook Group. You can join it at: <https://www.facebook.com/groups/dxfanzine>**

**NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.**

**Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources. Next deadline: 29.03.24 Please send your contributions to: [dxf@dxfanzine.com](mailto:dxf@dxfanzine.com) EDITOR: Antonello Napolitano (AN). LAST UPDATED: 2 February 2024, at 01.10 UTC. Web: [www.dxfanzine.com](http://www.dxfanzine.com) [www.dxfanzine.org](http://www.dxfanzine.org)** The cover photo shows the hosts of the program "Weekend Musicale", on air many years ago via the Italian Service of Radio Capodistria which broadcasts from Koper (Slovenia) on the MW frequency of 1170 kHz. From left to right: Aurelio Juri, Majda Santin and Dario Diviacchi.

# QSL REVIEW

**NB: Radio stations are listed under the country in which the transmitter (not studios!) is (or presumed to be) located. Unless otherwise stated, reception reports should be considered as sent by electronic mail.**

## ARGENTINA

**Radio General Urquiza Nacional Paraná, 1260 kHz:** F/D e-QSL Letter in less than 24 hours. V/S: Silvina María Celeste Ríos., Directora. The report was sent to this E-mail address: [srioslt14@radionacional.gov.ar](mailto:srioslt14@radionacional.gov.ar) I got this confirmation for a reception report dated 21<sup>st</sup> April 2020, after three unsuccessful attempts. After having noticed that another listener from Bahía Blanca, Argentina, got a verification I sent my third reminder and Bingo! (Ariel Osvaldo Torres, Buenos Aires, ARGENTINA, via Facebook Group "QSL"). §

**Radio Nacional Bariloche, 590 kHz:** F/D QSL Letter, typed upon my visit to the station in the city of Bariloche. Not only I was allowed me to visit their studios but also I was interviewed 15 minutes about DXing. I heard the station on 18<sup>th</sup> November 2023 from General Roca, in the province of Río Negro, in Argentina. The original report, which remained unanswered, was sent o this e-mail: [noticiaslra30@radionacional.gov.ar](mailto:noticiaslra30@radionacional.gov.ar) (Ariel Osvaldo Torres, Buenos Aires, ARGENTINA, via Facebook Group "QSL"). §

San Carlos de Bariloche, 28 de diciembre de 2023

A: Ariel Osvaldo Torres

De: LRA30 Radio Nacional Bariloche

Ref. Constancia de recepción de reporte de escucha

Por la presente, agradecemos haber realizado una prueba de recepción de nuestra señal de AM 590 ya que nos confirma que puede recibirse a una distancia de 395,57 km de nuestra emisora (desde Bariloche en línea recta a la ciudad de General Roca, ambas en la provincia de Río Negro).

Su reporte ha sido correcto y concuerda con los registros de la radio, por ello confirmamos el contenido descripto el cual fuera emitido por la señal mencionada el sábado 18 de noviembre de 2023 entre las 20:45 y las 21:05 hs.

Atentamente,

## BENIN

**Trans World Radio, 1566 kHz:** F/D e-QSL in 11 days. V/S: Lorraine Stavropoulos. E-mail address: [lstavrop@twr.org](mailto:lstavrop@twr.org) Heard via Kiwi SDR Villaverde, Fuerteventura, Canary Islands, Spain. (Carlos Alberto Erdmann, Vera Cruz, BRAZIL, via Facebook Group "QSL"). §

## BULGARIA

**Bulgarian National Radio (Horizont)**, 576 kHz: F/D QSL Card in 75 days. V/S: Denislava Semizovska. E-mail: [reception.report@bnr.bg](mailto:reception.report@bnr.bg) Postal address 4 ,Dragan Tsankov Blvd, 1040 Sofia, Bulgaria. (Roberto Pavanello, Vercelli, ITALY).§

## CANADA

**CFQR (Montreal)**, 580 kHz: e-mail in 1 day. E-mail address: [contact@cfqr600.com](mailto:contact@cfqr600.com) NB: Heard via Kiwi SDR in Scotland in the UK. (Peter Reuderink, Woerden, NETHERLANDS, direct and via his blog at: <https://petersdxcorner.nl/> ).

**CFRA (Ottawa)**, 580 kHz: e-letter, photos of the CFRA antennas at sunset made when Rick was inspecting newly installed tower flashers and of the studio with Patrica Boal at the microphone for her show “Ottawa at work” with producer Cory in the back, in 1 day. Report sent to: Richard(dot)furniss(at)bellmedia(dot)ca (Peter Reuderink, Woerden, NETHERLANDS, direct and via his blog at: <https://petersdxcorner.nl/> ).

## COLOMBIA

**Alcaraván Radio**, 5910 kHz: F/D e-QSL in 12 days. Heard via Kiwi SDR Fair Hill, Maryland, in the United States of America. E-mail: [rafaelcoldx@yahoo.com](mailto:rafaelcoldx@yahoo.com) (Juan Carlos Pérez Montero, Valladolid, SPAIN, via Facebook Group “QSL”).

005**

The image shows a QSL card for Alcaraván Radio. It includes the station's name, frequency range (HJDH 1.530 – 5.910 kHz), and a campaign slogan. There is a large stylized 'A' logo with '1530 AM' above it. A photo of a radio setup in a rack is shown on the right. A circular QSL stamp is also present, along with the call sign and date. The card is numbered 'No. 005' and has the word 'ESPECIAL' written vertically on the right side. The bottom of the card features a landscape photo of a radio tower in a field.

## CUBA

**Radio Habana Cuba**, 11760 kHz: F/D e-SL in 1 month. Report sent to the following E-mail address: [radioha@enet.cu](mailto:radioha@enet.cu) V/S: Irma Beitia Herrera, Jefe Grupo de Analisis y Correspondencia. Michele Gasparri, Civitanova Marche, ITALY, via Facebook Group “QSL”).

Number : 97RRI-BNA/SEK/X/2023  
Attachment : 1 Eks  
Regarding : QSL Card

Banda Aceh, October 12th 2023

This letter is for:  
Mr. Guido  
In  
Belgium

With all due respect,  
We wish upon good prayers and health for Mr. Guido and for the rest of your family. On behalf of Lembaga Penyiaran Publik (LPP) RRI Banda Aceh we would like to say thank you for listening to our programs and broadcast streams through a radio wave of Amplitudo Modulation (AM) with a frequency of 1251 Kiloherzt. With this letter we would also like to send you a QSL Card. We would like to add that RRI Banda Aceh has 3 broadcast channels that are currently airing which are:  
a) Programa 1 Frequency 97,7 megahertz  
b) Programa 2 Frequency 92,6 megahertz  
c) Programa 4 Frequency 88,6 megahertz  
We hope that Mr. Guido would like to do more collaborations in the future and we also hope that our broadcast can be heard by your family and friends in Belgium. That's it from us, Our warm regards to you and all your family members.

A: Me

Oggetto: RE: Radio Alicante, escuchada en Leporano (Italia) el 15 de Enero de 2024, en 1008 kHz a las 0720 (Hora de España).

Hola Antonello. Efectivamente, ese audio corresponde a nuestra emisora en el 1008 AM. Las ondas son caprichosas y en ocasiones llegan a rincones lejanos como el tuyo.

Es un placer saber que, personas como tú nos escuchan y nos contactan para comentarnos dónde nos han sintonizado.

Un saludo desde Alicante.

Pedro Alacid  
Dpto. técnico

## RADIO FREE ASIA ANNOUNCES QSL CARD #84

To welcome the Year of the Dragon, Radio Free Asia (RFA) announces its latest QSL card. While we are celebrating together with all of you to welcome a happy, healthy and prosperous new year, we wanted to highlight a value we hold dear, Article 19 of The Universal Declaration of Human Rights: "Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive, and impart information and ideas through any media and regardless of frontiers." This is RFA's 84th QSL design and will be used to confirm all valid RFA reception reports from January – April 2024. Reception reports are accepted by email at [qsl@rfa.org](mailto:qsl@rfa.org) and by mail to: Reception Reports Radio Free Asia 2025 M. Street NW, Suite 300 Washington DC 20036 United States of America.

## SUPER REDE BOA VONTADE DE RADIOS HAS CEASED BROADCASTING ON SHORT WAVES

On January 29, 2024, Uender Marques, in Unaí, Minas, noted that the three shortwave frequencies of the Super Rede Boa Vontade de Rádio, in Porto Alegre (Brazil), were off-air. He immediately got in touch, via WhatsApp, with the station's technician, Geison Guedes, who said that the station is in the process of migrating to FM. This explains why submitted to the Government a request to cease broadcasting on the short wave frequencies of 6,160, 9,550, and 11,895 kHz. And this is what has happened! Therefore, it is yet another broadcaster that abandons short waves!" (Source Manuel Méndez, Lugo, Spain).

## We have got mail! Reader's Corner: [dxf@dxfanzine.com](mailto:dxf@dxfanzine.com)

First e-mail is from **Wolf-Dieter Behnke** who lives in Berlin (Germany) and together with his message Wolf has also sent this picture of his receiving antennas shown below and writes: «Good evening Antonello, I would like to wish you a happy new year and also thank you very much for sending me the electronic newsletter DX Fanzine every month. In the January issue I read again in the "Italy on medium waves" section that Calcio FVG can be heard on 1503 and 1539 kHz. And in fact, I can listen to the station almost every day in Berlin. So far I have sent 3 reception reports with mp3 files via email. In a fourth email I simply asked if the station was not

interested in reception reports and did not respond to them? Silence, nothing but silence, no answer, nothing! Now my question: Do you know whether Calcio has already confirmed? Maybe the only answer will come if I send the report by snail mail? Or is there still an email address for the station's technicians? I thank you in advance for your answer. vy 73!». Dear Wolf-Dieter, thanks for your greetings from Berlin which I visited more than 10 years ago. You can be surprised but in my opinion, is one of the best capitals in Europe! About Radio Calcio FVG, to my knowledge, no confirmation has been sent until now. For your info, the transmitter of Radio Calcio FVG is hired from a service provider in Trieste. A few weeks ago I exchanged messages with the provider's project coordinator, Mr. Maurizio Castelli informing him that many listeners were complaining due to non-response to reception reports. I was told that he has already explained to personnel working at Radio Calcio FVG how important is to verify reception reports from listeners but it seems his recommendations have remained unheard. He promised that He would talk again about this issue with people at Radio Calcio FVG. In the meantime, It should be also mentioned ,that as from 10<sup>th</sup> January 2024 Radio Calcio FVG has moved from 1539 to 819 kHz. The frequency of 1539 remains unchanged. Parallel to this, Radio Metropolis in Trieste has shifted its original 819 kHz to 1503 kHz.

We have a few operators of, both pirate and official, stations in our midst and **Didier**, Director of programmes for Radio Augusta, tell us : «Just a precision, Radio Augusta on 1611 is a station from Ivory Coast. The Am transmitter is somewhere kept secret in Europe». Dear Didier, I am aware of this, but my hypothesis is that the transmitter is located in Belgium. Being this a speculation which has not yet been proved to be correct, you will

always found in DX Fanzine logs for Radio Augusta with transmitter site indicated as "Belgium" followed by a question mark.

Another operator who wrote to us is **Enzo Bassman**. He operates Radio Centrale Milano, and explains that, despite some slanderous rumours, his station is legally authorized to

broadcast on the medium wave frequency of 1575 kHz. Here is what he says (freely translated from Italian into English): «*Dear Antonello thank you for your great work. I wish you all the best for a Happy 2024 and thank you for having included Radio Centrale Milano in your List of Italian Medium Wave Stations among the authorised broadcasters (...) We are fully entitled since September 2023. For your information, we are currently on the air with a power of 400 Watts PEP. Power will be increased to 1 kW as soon as possible*».

Next mail comes from **Edward Kusalik**, a veteran DX'er since 1965, who lives in Daysland, Alberta in Canada. Edward is a long time contributor to our column "QSL Review" and for the first time sent us a couple of logs. Edward writes: «*Please find the attached file with the Pirate Information...wishing all the very Best in the New Year 2024..here in Daysland the winter vortex has arrived with temperature down to minus 24 at night's or more... Again, thank you for the excellent publication!!*». Thanks Edward for writing. Temperatures here in the South Italy are never so low, rarely, the coldest days are around 1 to 3 degrees Celsius but in summer most days are up to 35/40 degrees Celsius. Please do keep in contact with us.

A message in Spanish comes from **Dino Bloise**, in Miami (USA). Dino, who is the editor and host of the DX Program "Frecuencia al Dia" carried over WRMI and also available on Internet as a podcast, says (freely translated into English): «*I would like to take this opportunity to thank you for sending me your newsletter regularly It always has useful information for the listeners and it is interesting to read*». ! Muchas gracias Dino! I am honoured to hear such comment from you that in 2019 was elected by the Brazilian DX Club "Sem Fronteiras", as the "Best Shortwave Personality".

Words of appreciation for DX Fanzine can be found in a message from **Gayle Van Horn** (W4GVH), a prominent figure in our radio world (She is the owner of Teak Publishing author of Global Radio Guide and, formerly, the manager of the exhaustive Monitoring Times Frequency Manager), who writes: «*I enjoy your informative editions very much, and continue to post portions on my radio blog. I send my kind regards*». Thank you Gayle and, as requested, we'll send DX Fanzine to a different e-mail address.

Last but not least: thanks to the following readers for their short thank you messages for circulating DX Fanzine and/or Happy New Year Greetings: **Iain Cameron** (UK), **Klaus Fuchs** (Germany), **Risto Harjula** (Finland), **Michael Andersson** (Sweden), **Frank** (France), **Jürgen Waga** (Germany), **Bruno Pecolatto, Paolo Romani, Alfredo Gallerati, Dimitri Breoni, Angelo Pacorig** (Italy).

### **E' nata la Mailing List "Notizie Radio" dedicata al Radioascolto**

Creata per discutere sul radioascolto in generale con informazioni che riguardano le emittenti internazionali, la propagazione, gli ascolti, le conferme QSL ricevute dalle emittenti ed altro ancora, è stata creata la mailing list, totalmente gratuita, NOTIZIE RADIO. Per iscriversi basta inviare un messaggio con una piccola presentazione al seguente indirizzo: [notizieradio+subscribe@groups.io](mailto:notizieradio+subscribe@groups.io), mentre per pubblicare i messaggi basta scrivere al seguente indirizzo: [notizieradio@hotmail.com](mailto:notizieradio@hotmail.com) Per disdire la sottoscrizione, occorre invece inviare un messaggio di posta elettronica, senza testo o oggetto, all'indirizzo: [notizieradio+unsubscribe@groups.io](mailto:notizieradio+unsubscribe@groups.io).

# WORLD RADIO DAY 2024 - PRESS RELEASE FROM WORLD RADIO TV HANDBOOK

## Share Your Radio Stories and Pictures 🌐

We want to honor our global community on World Radio Day by celebrating our community members on our media platforms. As passionate radio enthusiasts, we would love to hear your unique stories and connecting with the faces behind the radios.

### 📷 Share Your Radio Story:

We invite you to be a part of our World Radio Day celebration by sharing a picture of yourself with your radio or a snapshot of your beloved radio setup **before February 7th**. Tell us why radio is so important to you and the impact of radio in your life – whether it's the thrill of discovering new stations, the nostalgia of tuning into your favorite shows, or the sense of community that radio fosters.

### 🌟 How to Participate:

1. 📷 Take a photo of yourself with your radio or capture your radio setup.
2. 📝 Share with us why radio holds a special place in your heart. What makes it an essential part of your life?
3. ✉️ Send your photo and story to [newsletter@wrth.org](mailto:newsletter@wrth.org) with the subject line "WRTH World Radio Day 2024."

### 🌐 Publication on WRTH Website and Social Media:

Selected entries will be featured on our WRTH media platforms, showcasing the diverse and vibrant community that makes radio such a powerful medium. It's a chance to connect with fellow radio enthusiasts, share your passion, and inspire others to explore the world of radio.

Let's make World Radio Day 2024 unforgettable by coming together as a community and celebrating the magic of radio. We can't wait to see your photos and hear your stories!

# L'autonomia radiofonica differenziata della Spagna

di Antonello Napolitano

(NB: Tutti gli orari indicati sono CET, equivalenti all'ora italiana). Un aspetto poco conosciuto del radioascolto è la caccia alle stazioni radiofoniche spagnole che ancora, numerose, trasmettono sulle onde medie. Probabilmente, il fatto che quasi tutte, trasmettono in isofrequenza e sono associate ad una "Cadena", con larghissima parte della programmazione in comune (Le stazioni indipendenti sono pochissime) scoraggia molti a tentare la loro identificazione. In questo articolo ci si

soffermerà sulle due principali reti private "SER" e "COPE" ed anche sull'emittente pubblica Radio Nacional de España.

In premessa va detto che la Spagna è suddivisa in 17 Comunità autonome (Andalucía, Aragón, Asturias, Baleares, Canarias, Cantabria, Castilla-La Mancha, Castilla Y León, Cataluña, Comunidad Valenciana, Extremadura, Galicia, La Rioja, Madrid, Murcia, Navarra, País Vasco), più due città autonome (Ceuta e Melilla, entrambe situate sul territorio nordafricano).

La mattinata ideale per ascoltare e, soprattutto, identificare le stazioni spagnole può avere inizio alle 0626. Nei tre minuti fino alle 0630, le emittenti della Cadena COPE mandano infatti in onda annunci di identificazione, promo e pubblicità locale. La stessa cosa accade tra le 0656 e le 0700.

Dalle 0650 alle 0700, le emittenti della SER invece diffondono il primo spazio informativo regionale. Il programma è denominato "Hoy por Hoy" seguito dal nome della "Comunidad Autónoma".

A titolo di esempio si cita la frequenza di 1044 kHz, sulla quale operano Radio San Sebastian e Radio Valladolid. In base a come gira la propagazione e/o la direttività dell'antenna utilizzata, su sarà possibile ascoltare "Hoy por Hoy Euzkadi", nel caso di Radio San Sebastian, oppure "Hoy por Hoy Castilla y León", nel caso di Radio Valladolid.

Venti minuti dopo le 0700, sia le emittenti della COPE che quelle della SER, si disconnettono da Madrid e trasmettono un notiziario rispettivamente, regionale e locale. Nel caso della Cadena SER, la denominazione del programma è sempre la stessa “Hoy por Hoy” seguito questa volta dal nome della città. Le emittenti della COPE invece si identificano aggiungendo la denominazione della “Comunidad autónoma”.

Hoy por Hoy  
Ceuta

Tornando all'esempio dei 1044 kHz, invece di “Hoy por Hoy Euzkadi” si ascolterà “Hoy por Hoy San Sebastian”. Va menzionato che in alcuni casi il notiziario delle 0720 copre l'attualità di un'area più vasta della città dalla quale opera l'emittente locale. Di conseguenza, la denominazione del programma non farà più riferimento alla città di appartenenza ma alla provincia (o parte di essa). E' il caso, ad esempio, dei 1080 kHz di Radio

Huesca, frequenza sulla quale si ascolterà “Hoy por Hoy Alto Aragon”.

Le 0725 sono l'ora giusta per sintonizzarsi sulle frequenze di Radio Nacional de España, la cui vasta rete in onde medie, si distacca da Madrid per diffondere attraverso i vari centri regionali della RTVE, un notiziario locale (Informativo local) della durata di cinque minuti.

L'identificazione di questi notiziari locali è piuttosto semplice: la loro origine è infatti svelata dal jingle di apertura “Radio Nacional de España” seguito dal nome della città o, in alcuni casi, della Comunità autónoma.

radio 5  
rne

Sempre Radio Nacional de España dà nuovamente spazio alle redazioni territoriali, questa volta per diffondere un notiziario regionale (Informativo territorial) della durata di 15 minuti, alle 0745. In questo caso l'annuncio di apertura sarà “Radio Nacional de España” seguito dal nome della Comunità autónoma.

Va detto che la RTVE vanta redazioni regionali sia nelle 17 Comunità autónome che nelle due città autónome (Ceuta e Melilla) in cui, in base alla Costituzione del 1978, la Spagna è suddivisa amministrativamente. Le sedi della Catalogna e delle Canarie sono anche dei centri di produzione.

Proseguendo, va segnalato che sia la COPE che la Cadena SER, dalle 0750 alle 0800, cedono nuovamente la linea alle emittenti periferiche per lasciare spazio all'informazione regionale. (Nel caso della SER con la solita denominazione “Hoy por Hoy” seguita dal nome della Comunità autónoma). Stessa cosa accade, tra le 0820 e le 0830 per la SER, e tra le 0825 e le 0830 per la COPE: questa volta però per consentire la messa in onda di una nuova edizione dell'“informativo local”. Come sempre, il notiziario della SER assume la denominazione “Hoy por Hoy” seguito dal nome della città.

Ovviamente, nelle ore successive, ulteriori notiziari locali e regionali sono diffusi, prima che si faccia sera. Essi tuttavia risultano impossibili da ricevere in Italia perché trasmessi in orari in cui le onde

medie si propagano esclusivamente attraverso l'onda di terra. Per riascoltarli bisogna dunque aspettare le ore serali.

Di sera, la SER diffonde i suoi notiziari regionali dalle 1920 alle 1940 e dalle 2025 alle 2030, mentre RNE cede la linea alle sedi regionali per soli due minuti alle 1704, 1804 e 1904 (Contrariamente al mattino non c'è un annuncio di identificazione e per capire di quale stazione si tratti occorre ascoltare con la massima attenzione le notizie) e, per dieci minuti, dalle 1950 alle 2000. Per quanto riguarda la COPE, brevi bollettini informativi regionali sono diffusi alle 1710, 1810 e 1910, ed uno più ampio della durata di dieci minuti, alle 1950 in concomitanza quindi con l'"informativo territoriale" di Radio Nacional de España.

## Hoy por Hoy Sevilla

Salomón Hachuel  
De 12:20 a 14:00h

CADENA  
**SER**

C'è da aggiungere che tutti i notiziari locali e regionali sono irradiati solo dal lunedì al venerdì e che in estate, con le ore di luce che si ampliano notevolmente, le possibilità di ascoltarli si riducono drasticamente ed ancora che lo schema non è rigidissimo.

Può capitare, soprattutto in occasioni di eventi sportivi o religiosi, che le emittenti facenti parte delle reti private "SER" e "COPE", possano decidere di "riprendere" la linea da Madrid per mandare in onda un programma locale anche al di fuori degli orari citati.

Infine, va ricordato che i programmi locali diffusi dalle stazioni della Catalogna e delle Isole Baleari, non saranno in spagnolo ma rispettivamente, in catalano e maiorchino. Lo stesso si verifica anche per alcuni notiziari regionali della Galizia e dei Paesi Baschi di Radio Nacional de España, che vengono diffusi rispettivamente in galiziano e lingua basca.

## ITALY ON MEDIUM WAVES

Welcome to this 5.0 edition of "List of private MW stations in Italy". Unlike other lists that you can find over the Internet, this publication only lists stations currently on the air, expected to start operation very soon or temporarily off-air. Also included is information on how to contact the stations (E-mail and Web sites), QSL policies and, when known, transmitter powers and future plans. I have compiled this list by assembling information received directly from the stations and my own research. I have done my best to keep mistakes to a minimum.

Almost all of Italian MW stations are licensed. Despite this, solid data on hours of transmission, programmes, frequencies, and contacts are difficult to obtain because station practices themselves change often. Another point to be mentioned is the fact that frequencies sometimes change, and new ones or old ones appear or reappear. Some stations, especially those unlicensed, are not on the air daily and/or the frequencies rarely tend to be used all the day.

Most stations operate from the North of Italy (especially from the regions of Lombardia, Veneto and Friuli Venezia Giulia), a few from the central part of the country (Toscana, Emilia Romagna, Umbria, Marche, Lazio and Abruzzo) and, after the disappearance a number of years ago of Gold 1593 located in Sicily, virtually none from the South.

This list will be regularly updated and more details will be added in future. If you have any corrections, additions, comments or suggestions please don't hesitate to write to: [dx@dxfanzone.com](mailto:dx@dxfanzone.com) – Last but not least: if you find any error (and you are invited to let me know) be advised that it was absolutely unintentional! Antonello Napolitano.

### Licensed and unofficial independent broadcasting stations on mediumwave (L means Licensed)

Freq.	Station	Notes	Transmitter Site and Power
01)	603 Nuova Radio AM*	L.	Spoltore, PE. (Abruzzo)
