

DX Fanzine No. 106 – June 2022

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual DXers or ascertained from different sources. We are interested in any change in frequencies, times, language-services, transmitters, programme contents, phone and fax-numbers, electronic and postal address, station personnel. The purpose of DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is to provide timely and topical news and information to shortwave enthusiasts worldwide. It is available on the web at www.dxfanzine.com and updated as soon as loggings, DX news, frequency updates, as well as, QSL notes are received from any SWL around the world. Although the primary platform for delivery of DX FANZINE information remains its web site, it is turned into a pdf file, (where you can see the final version of it with loggings and information, just as they appear online), a couple of days after the end of each month and sent out FREE to anyone who has subscribed. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources.

Please send your contributions to: dxf@dxfanzine.com **EDITOR:** Antonello Napolitano (AN).

Editor's Note: First of all, please accept my apologies for the delay in publication of this issue of DX Fanzine. Unfortunately, since the end of June I have been overworked. As you may be aware, a common problem with work overload is a lack of free time, working hours eating into your day, and overwhelming time you would have otherwise taken for yourself. Since a number of logs in this issue may result obsolete, I decided for the first time in the history of DX Fanzine to include also logs received after the usual deadline (the last day of the month). It should also be mentioned that this issue contains very few QSL notes. I wonder if interest for QSL is being disappear. I take this opportunity to announce that the online edition of DX Fanzine has been discontinued. In the future the website www.dxfanzine.com will exclusively include the PDF version of our bulletin. Last but not least, the bad news from Italy is that RAI, the public Italian Radio Television Company, will be closing down all of its remaining 13 medium wave transmitters on 11th September 2022. By doing so, Italy is following the same path of many other European countries like France, Germany and Switzerland. That is very sad!
